Sight-Unseen Market Higher For Generics
Minor Gold Sidesteps Spot Sputter

Bidding activity for sight-unseen material was not at all subdued this past week, as is often the case leading into a large show, especially one like FUN. This unexpected action is most likely the result of the volatility of Gold and Silver. Indeed, most dealers prefer to arrive at a show as early as possible for the first shot at any fresh deals. Some will even pull their Bids altogether to avoid concerns regarding over-extending their credit lines, and/or market-place positions. Nothing could be further from the mark to start this year.

Generics from Morgans to Walkers, and Mercury Dimes to Buffaloes are crowded with upwardly mobile climbers. Competition for generics is starting the year with gusto. Bidding activity for Morgan Dollars, while not as inspired as the other sight-unseen "collected-by-date" series, nevertheless received some pre-FUN attention this week. Starting at the beginning, 1878 8 TF Morgan Dollars, the first Morgan Dollar issue struck at the Philly Mint, are sought in Choice and Very Choice at new, higher levels of $150 and $350, respectively. Gem certified examples Bid $1,000 sight-unseen, as they have since November, 2010. A year ago, this issue was Bid at $132, $285 and $850 for grades MS63 through MS65 demonstrating increases of 12, 19, and 15 percent, respectively. By comparison, generic Morgan Dollars increased 13, 26, and 13 percent in the same grade range. Generics certified at MS66 roomed at $222, but at least one dealer wants to separate a few better citizens, Bidding $223 for select dates. The downside is limited to a half-dozen listings, the most noteworthy an 1886 in NGC MS67 that slithered over the wire for $575, though this particular coin could be the poster child for a sight-unseen "worst case scenario" example. Peace Dollars piece together some advances with the generic listings; the Philly boys from '22 to '25 notch gains in MS64 at $39 and $115 in MS65.

A couple of Booker T. Washington PDS Sets, the 1946 and 1951, were acquired at a remarkable discount, the '51 especially so, which gaveled at $518 at an online only venue. This was a nicely matched Set, hammering home the point that the internet age presents opportunity for perceptive buyers. Within the Gold Commem segment, the 1916 McKinley Dollar is now Bid $500 in MS63, representing a 5% jump. The pair of Lewis and Clark Dollars are lower in MS65 as they were offered for a discount this week.

Mint State Type starts the year off higher. Advancing Bids are in place for Seated Dollars with and without Motto as well as Seated Halves with Motto, the former in MS61, the latter in MS62. Not to be left out, Ms. Barber, who starts out in the 19th century, the design of course immediately following the With Arrows Half, claims a higher Bid in NGC MS61. Population numbers for the Liberty Seated Dollar Types beginning with the No Motto at NGC are 169, 494, 634, 415, and 75 for grades MS61 through MS65 in ascending order. The story reads 473, 594, 408, 237 and 50 at PCGS. The higher Bid in place for MS61 examples is $900. Gems are Bid $40K on the PCGS side; NGC Gems are Bid at $13K. With Motto Seated Dollars offer a very similar Bid and population profile. Mint State Gold Type is host to a large complement of higher Bids, and quite noticeably clustered in the "minors" section - Gold Dollars through Half Eagles. Moving to the higher denomination aisle, there are some minus signs, the magnitude of which correlate somewhat with the drop in Gold Spot from the last report to this one.

Sticking with 2011's story of the year so far, Buffalo Nickels advance in MS65 for the '37, '37D, and '38D. The '37 and '38D also jump up in MS66 to $49, and the '38D goes higher solo in MS67 to $106. A plethora of generic Mercury Dimes start the year Bid at a new, higher level for coins slabbed NGC MS65 through MS67. Generic Walkers present an even longer contingent of issues starting out 2011 on higher ground with new Bids spread amongst grades MS64 to MS67. The singular better date '42S leads the list, advancing 13% percent to $225 in Gem.

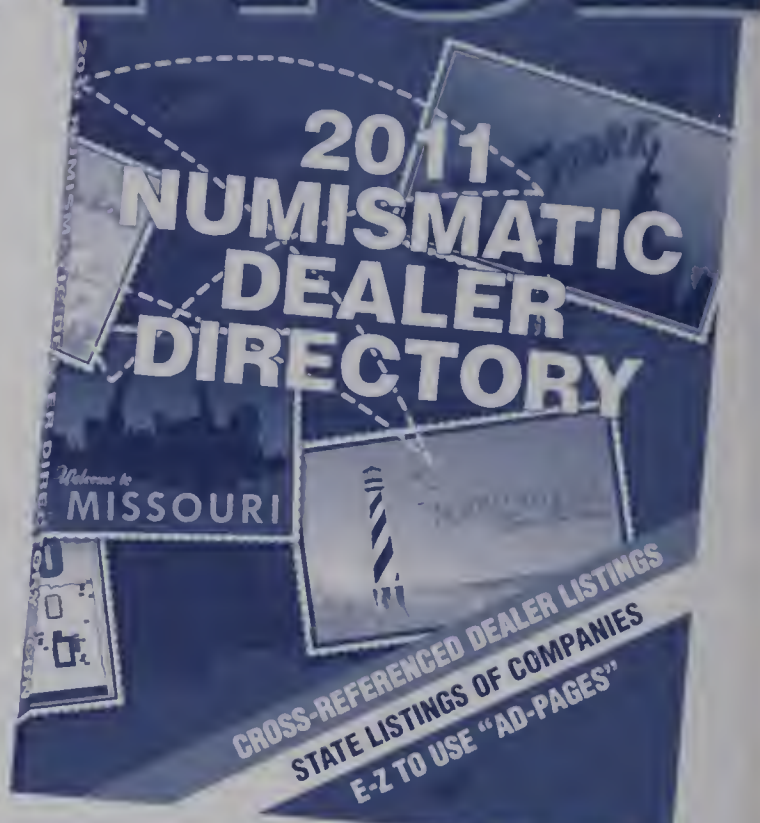
It's Like Getting

PAID to ADVERTISE

Here's How It Works!

Place an ad in the 2011 Numismatic Dealer Directory with payment by January 31st and receive a second ad half-size **FREE!**

You may place your **FREE Ad** under a different category in the 2011 Numismatic Dealer Directory or in one of our other publications during 2011.



Do The Math...

Buy a 1/2 Page Ad in the 2011 NDD by Jan. 31st	**$500** (1 time charge)
FREE 1/4 Page ad in the Greysheet	**FREE** ($350 value)
FREE 2011 Numismatic Dealer Directory	**FREE** ($25 value)
FREE Bolding in Both State & Alpha sections	**FREE** ($20 value)

Your ad will be seen all year.

	NDD	CDN	(Half-Size)
1/8 Page Ad	$180	~~$70~~	FREE
1/4 Page Ad	$300	~~$140~~	FREE
1/2 Page Ad	$500	~~$350~~	FREE
Full Page Ad	$800	~~$700~~	FREE

Total Value $895

You Pay Only $500

Get a FREE ad with the purchase of an ad in the NDD

YOU SAVE $395!

Professional Design and Graphics Team to Help Produce Your Ad – FREE!

Call or FAX - It's Easy

Phone: 310-515-7369 • Fax: 310-515-7534

in the 2011 Numismatic Dealer Directory

the COIN DEALER Newsletter family of publications
P.O. Box 7939 • Torrance, CA 90504 • 310-515-7369 • **FAX 310-515-7534**
ndd@greysheet.com • www.greysheet.com/ndd

Step 1 *Pick your Ad Size*

- ☐ 1/8 Page Ad $180 (this is all you pay - ever!)
- ☐ 1/4 Page Ad $300 (this is all you pay - ever!)
- ☐ 1/2 Page Ad $500 (this is all you pay - ever!)
- ☐ Full Page Ad $800 (this is all you pay - ever!)
- ☐ Listing Only (see step 4)

Step 2 *Select your Category*

- ☐ Accessories and Books
- ☐ American Eagles
- ☐ Antique Guns
- ☐ Appraisals
- ☐ Attribution Consultation
- ☐ Auctions
- ☐ Barber Coinage
- ☐ Book Publishing

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

WALKING LIBERTY HALVES

If your coin will stand on its own merits regardless of the certified grade, a higher *CDN* Bid may be more indicative of current market value.

Lorena Washington, Coin Dealer Advocate

If You're a Coin Dealer, You Need To.

If you're a coin dealer, your mission is to sell coins. Lorena Washington's mission is to make it easier for you.

Right now, Lorena's job is to make sure that there are no empty tables at the upcoming **Long Beach Expos, February 3-5 and June 2-4, 2011**, and show management has given her all the ammunition she needs. And donning her trademark pink vest at all major coin shows – you can't miss her.

Our new Section F ensures that for an absolutely minimal investment, you'll be in the house. It's at the back of the hall, but you will still be able to enjoy the many benefits of the Long Beach Expo, including the ability to interact with *hundreds* of dealers and *thousands* of collectors. You can even order a table in Section F by the day if you're so inclined, or if you sign a three-year contract, your last table is FREE! We are also offering discounted Early-Bird Dealer Ribbons, a Wednesday Post-setup Beer Fest, and if you place your order directly with Lorena at an upcoming coin show, she will include a nice gift basket free of charge.

Just look at these Section F prices:

Inline booths: $125 per day, $250 all three days.
Corner booths: $175 per day, $350 all three days.

But hurry, tables in Section F are first come, first served. To reserve your space or to talk to Lorena about a table in Section F or elsewhere, contact her at **805-962-9939** or **lorena@exposunlimited.com**, or visit **longbeachexpo.com**. Or better yet, talk to her at an upcoming coin show. She'll make you an offer you can't refuse.

LONG BEACH EXPO

CERTIFIED COIN DEALER newsletter

*CCDN — a weekly report on the **Sight-Unseen** certified market published by the Coin Dealer Newsletter (est. 1963)*

Vol. XXVI No. 2 | January 14, 2011 | Single copy price $4.00

Proof $10 Indian Wins $2.2 Million Gap Widens Between The Best And The Rest

Morgan Dollars reflect the terrific amount of auction activity that took place during the first two weeks of January 2011, as some $50 million worth of coins and related numismatic material traded hands while the hobby's elite gathered for the FUN Show in Tampa Bay, Florida. As is often the case when multiple auctions of such a large magnitude take place, there will likely be a sizable number of coins that exceed sight-unseen Bids by multiples, just as there will be a certain amount of coins that wind up selling at a discount to published Bids. The main story told in Tampa is the clear bifurcation which has developed between top end examples and lower quality coins.

Case in point, three Unc examples of the much sought after 1895O Morgan Dollar sold in successive lots on the same night in Florida. Here all three specimens were graded by PCGS as MS62, the third of which included the + qualifier, identifying that coin as being at the top third of the grading scale. A particularly less-than-handsome example went for $18,400. A second garnered $20,700 and the third, a + graded coin, realized $29,900—demonstrating the value of premium quality for the grade. Moving on to the other cartwheels, a handful of Peace Dollars undergo minor downward revisions to Bid. However, this segment enjoyed a great success as a complete set went off at auction, each coin representing an individual lot, capturing prices that cast sight-unseen Bids into the shade. Just one example, a 1922 graded PCGS MS67, yielded $8,625.

Mint State Type exhibits a fair number of decliners this week, with the greatest drop hitting the No Drapery Dime, graded MS63 by NGC, which plummet over 8 percent. Type 1 and Type 3 Gold Dollars account for the lion's share of advancing Bids within the Mint State Gold Type chart. Looking to Early Gold, one dealer has gone on record with a $700,000 sight-unseen Bid for the lone (PCGS Pop 1) 1808 $2½ Capped Bust Left Quarter Eagle. An example graded MS63 by PCGS sold for $517,500 in November, 2008. Meanwhile, a handful of listings reflect somewhat weak showings at auction for this segment including an 1802/1, NGC Gem, which resulted in a reduction to Bid. Proof Gold Type, in one of this week's highlights, enjoys stunning increases for $5 Indian Heads in PR61 and PR62; the new, higher sight-unseen Bids now stand at $5,250 and $6,500 respectively. PCGS PR61 population is 1, and NGC pop is 0. PCGS PR62 population is 4, and the census shows 2 have been made at NGC. At the PR63 level, the number of coins made is 15 and 14 by PCGS and NGC.

Buffalo Nickels were a motley bunch in the latest rounds of auction activity. While the sight-unseen charts are decidedly negative, many of the Buffalo Nickels that did sell, sold for levels in keeping with *sight-seen* quality. In a market that is moving toward premium quality fare, marginal coins, or "liners" see buyers looking down toward the lower grade, not up to the higher grade. Such certified material is a tough sell at almost any price. Mercury Dimes and Walking Liberty Half Dollars submit to the reality of sight-unseen market dynamics as a dose of negative adjustments hits both series. Recent auctions are flush with examples of CAC approved and + graded coins commanding prices suggesting that this material is gaining traction, and the presence of new platforms such as CoinPlex facilitating the trade of such slabs may continue to attract market share.

A slew of outrageously toned Silver Commems in MS67 that sold at auction are responsible for perhaps the most obvious widening of the gap between inferior and premium quality. To cite one example, a 1923S Monroe graded PCGS MS66 hammered for $13,225 or just shy of 5 times its sight-unseen Bid. Turning to Gold Commems, there is a proportionately larger amount of declines, especially notable, the 1905 Lewis & Clark Gold Dollar which falters on the trail in PCGS MS63-MS66. Studying the winners and losers, applying prices from the recent sales as a yardstick doesn't appear to prove that any particular segments of the market are registering hot or cold on the numismatic thermometer, but rather that anything of quality is hot.

NGC — Numismatic Guaranty Corporation of America, Sarasota, FL (800) 642-2646

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases a more accurate reflection of a coin's true value may be found in the CDN albeit on a sight basis.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

NGC EARLY RELEASES

The designation you can trust — now available for all modern coins.

To qualify for this designation, early-issue coins must be in our hands within the first 30 days of release, making NGC Early Releases the strictest designation of its kind.

Stay tuned for eligibility requirements and cut-off dates. NGCcoin.com/earlyreleases

CERTIFIED COIN DEALER newsletter

*CCDN — a weekly report on the **Sight-Unseen** certified market published by the Coin Dealer Newsletter (est. 1963)*

Vol. XXVI No. 3 | January 21, 2011 | Single copy price $4.00

Cartwheels Keep On Truckin' Higher
Extraordinary Large Cents To Cross The Block

1921 Morgan Dollars lead things off in this week's sight-unseen market review, recording a 20 percent jump in Bid from $25 to $30. Stretching the interval back to October 29 of last year, the same issue shows a nearly 50 percent increase in rising from $21 for a certified MS63 to today's $30 level. Common date pre-1921 Morgan Dollars, now have a sight-unseen Bid of $133 in MS65. The current upswing in Bid for Gem Dollars may be seen as a continuous advance that dates back ultimately to November, 2009 when MS65 Bid clocked in at $110. Numerous incremental advances add up to a 20 percent increase in just the last sixty days for one of the market's most actively traded coins. Back in September of 2007, *CCDN* Bid was $100, which proved to be a cyclical low point for generic Morgans. From that vantage point, things started heading upward. Running out of steam merely twice along the way, by April, 2008 they have engraved a path to a sight-unseen Bid of $141. The generic Peace train keeps on chugging alongside the Morgan express, racking up 17 advances within today's installment. In addition to the movers from the common date seats in the MS63 and MS64 section, better date passengers include the first year of issue 1921, 1927-D and 1934-D, all in the MS64 state of preservation.

Silver Commems weather the final review of market data, from this segment's contribution to $50 million worth of FUN auction results, with Bid levels mostly well preserved. Discounts occurred, as occasionally auction lots realized less than what at least one dealer was offering to pay sight-unseen. Of merely a handful of offenders, the highest profile is perhaps the Washington Carver Type, in NGC MS67, an example of which realized only $1,725. At least one dealer is still looking for one, and is willing to pay $1,800 sight-unseen. Gold Commems keep on slugging thru the winter season with numerous market-makers poised in various strategic locations ready to snap up items that come into view as a result of a moment's notice liquidation. This week's charts show no outward signs of activity following the final barrage of auction material.

A typical set of affairs is in place for the wide ranging, broad expanse of Mint State Type, from an MS64RB Indian Head Cent that Bids $50 to the 1796 Draped Bust Quarter in the $300K range. (Quality Type material almost always sells well above sight-unseen flooring.) Within the Gold Type segment, lower Mint State grade Double Eagles follow the Spot price volatility. With Gold Spot nearly $50 lower than last week, it's no surprise that this is the worst performing area of the market. This scenario is clearly seen within the date-by-date listing of the $20 Saint-Gaudens, which are chock full of minus signs. The last time we listed these prices, Spot was $1,370, vs today's $1,347 close. As a result of this softness, common dates in Very Choice condition are now down nearly $100 to $1,525.

Proof Type suffered little in the sight-unseen arena. A few dogs barked from the auction podium, howling until exhaustion set in at one or two increments from sight-unseen Bid, though nothing severe enough to note the details. Proof Gold Type is a market segment unto its own, with each listing from PR61 to PR67 possessing visible buyers. Listing for listing, this segment may very well offer more support at published levels than any other area of the market. Sellers often rely on an individual coin's merits hoping to locate buyers at auction looking for the qualities the seller's coin possesses. A majority of situations proves the sellers' right and coins bring prices in line with sight-seen expectations. In only a minority of instances, there are coins that go unsold. Only at the confluence of sight-unseen quality *and* an immediate need for cash, do buyers and sellers come together at published levels. Mint State Walkers, showing earlier signs of ending hibernation, continue to do so, if not entirely in an awakened state yet. Superb Gem examples of the 1945-S emerge from the PCGS cave, throw off their sleep with one shrug springing ahead 25 percent from $1,600 to $2,000. The Dan Holmes Collection of late date Large Cents is set to be offered by the Goldberg's on January 30th in Beverly Hills. The sale consists of 688 lots; more lots than there are Newcomb varieties. See a list of several of the many highlights from this auction herein.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Spectrum CDN Ad U.S. Proof Gold 06.10

To a Coin Collector, Confidence is Priceless

Everyone wants to be confident about the quality of a coin. When it's a CAC-verified coin, you can trade with confidence.

Whether you're a novice or advanced collector, you know that quality is what determines the value of a rare coin. The problem is, within any certified coin grade, not all coins are "solid" quality coins. Now there's an easy way to identify coins that are solid for the grade - just look for the CAC verification sticker.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade. What's more, CAC is a powerful market maker for CAC verified coins. In fact, CAC has recently purchased over $100,000,000 worth of CAC verified coins.

Want confidence in the value of a coin? Look for the CAC sticker.

For more confidence in the value of a coin, look for the CAC green sticker.

CAC®

"Because Confidence is Priceless"

WALKING LIBERTY HALVES

If your coin will stand on its own merits regardless of the certified grade, a higher *CDN* Bid may be more indicative of current market value.

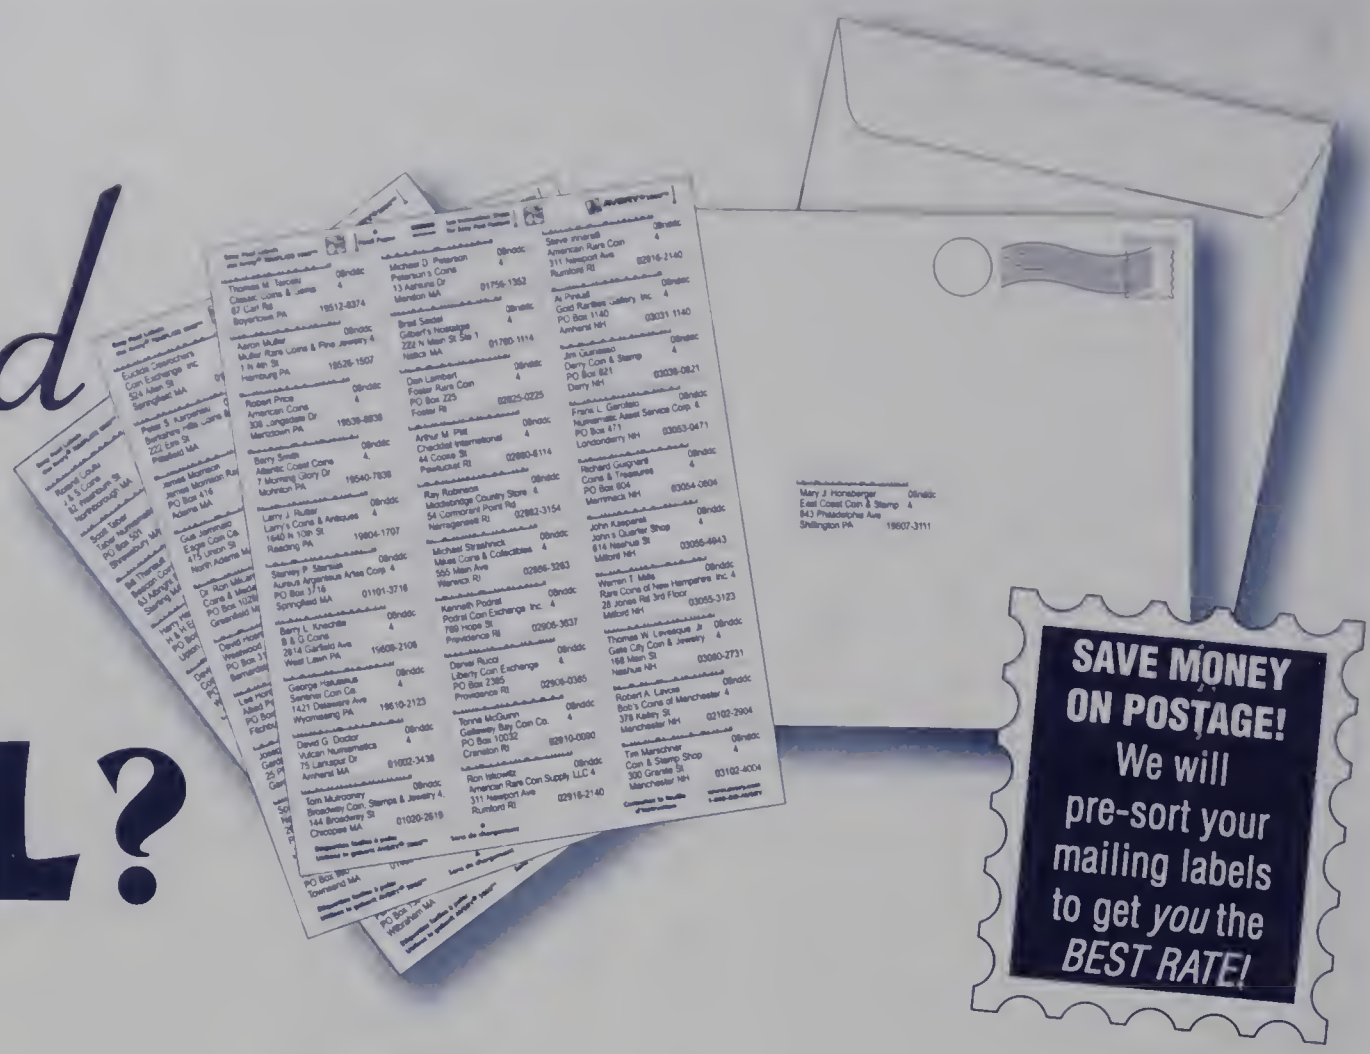
Need to MAIL?



Need to contact America's leading numismatic dealers? Make your advertising and postage dollars count with the nation's best dealer listing. The company name and numismatist sections of the

2010 Numismatic Dealer Directory™

are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,300+ current names and addresses. And ***current*** is a promise taken seriously — the database is updated ***daily***. All for only $325 — well below the mailing industry standard of $75/thousand.

To make this offer even more attractive, labels are available in both First Class order or Presorted for Basic Bulk Rate mailings: You can save more than $950 over First Class postage stamps! Need just one state or region? Need a trial sample? Order the states you need and pay only $25, plus 7¢ per label.

YES, I want to order mailing labels averaging 5,300+ names from the 2010 Numismatic Dealer Directory. I understand that my $325 fee entitles me to only one usage of these names. _____ signature

❑ My check for $325 payable to CDN, is enclosed.

❑ Only send these states _____ and charge me 7¢ per label, and a one-time $25 break-out fee.

Vol. XXVI No. 4 | January 28, 2011 | Single copy price $4.00

Common Date Dollars Extend Gains
Silver Type Pushes Higher

Dealers are thawing out in sunny Long Beach, and many are conducting business in their personal mini-bourse environments; or perhaps for those dealers blessed with long want lists or client representation at auction there will be extended lot viewing sessions. Following the pre-show auctions conducted by the Goldbergs, the famed Long Beach Expo will take place, beginning February 3. Heritage will host the official auction. (See highlights herein.) PCGS will throw a real hoedown for PCGS authorized dealers at the Long Beach Expo in celebration of their 25th anniversary. This casual dress shindig will take place after set-up, Wednesday, February 2, from 7:00 to 10:00 at the Beacon Ballroom in the Long Beach Hyatt, adjacent to the convention center. Food will be provided along with live music, including some surprise jam session guests. These events don't come along very often in this industry, and offer a much needed, light-hearted social event which can provide pleasant memories to last a lifetime.

Silver Commemoratives were mostly quiet this past week. Only the 1935/34 Boone PDS Set and 1935 Arkansas PDS Set show downward adjustments to Bid in MS66. Examples of the 1915-S Pan-Pac graded MS64 by NGC advance from $550 to $600. Dealers are extending sight-unseen Bids to the lower Mint State grades, now present in MS61, a new development within the sight-unseen market for Silver Commems. No downside movement touches the Gold Commem chart this week. In fact, there are a couple of increases worth mentioning. The 1905 Lewis & Clark Gold Dollars trek the numismatic trail to higher ground in PCGS slabs at the MS63 and MS64 level, now Bid at $1,500 and $2,600, respectively. These sight-unseen increases put Bid nearly at their recent retail auction levels, as seen in the Market column. Generic Morgan Dollars provide further validation of the strength at the lower end of the sight-unseen certified rare coin market, characterizing this area for some time now. This week, advances are in place for MS61 thru MS63 examples; dealers will now pay a minimum of $31, $33 and $40, regardless of what the coins look like, as is the nature of sight-unseen trading. Within the Peace Dollars chart, advances are recorded for MS63 and MS64, taking Bid for generics to $36 and $41, respectively. Neither chart is afflicted with any declining Bids, though a couple of completed transactions and wholesale offers to sell would indicate that the occasional coin can be purchased at a discount to the highest binding, sight-unseen Bid.

Heritage Long Beach

1902 Indian Head Cent	PCGS	PR68R
1916 Standing Liberty Quarter	PCGS	MS65FH
1921-D Walking Liberty Half, CAC	PCGS	MS65
1928 Hawaiian Sesquicentennial	NGC	MS67
1895 Morgan Dollar, Cam	PCGS	PR64
1929 $5 Indian Head, CAC	PCGS	MS63
1801 $10 Capped Bust	PCGS	MS62
1914 $10 Indian, CAC	PCGS	MS66
1885 $20 Liberty, CAC	PCGS	MS61
1920-S $20 Saint-Gaudens, CAC	PCGS	MS62
1921 $20 Saint-Gaudens	NGC	MS62
1915-S $50 Pan-Pac Octagonal	PCGS	MS63

Mint State Silver Type boasts a nice sampling of issues that underwent adjustment this week and now reflect new, higher Bids, at both ends of the Mint State grading spectrum. Capped Bust Quarters, Reduced Size, jump boldly higher in MS61 and MS62 to $1,000 and $1,250. Noting the slight differences in the prior NGC and PCGS Bid levels, the new numbers represent 25 and 30 percent increases for NGC slabs at MS61 and MS62, and 33 and 38 percent increases for PCGS coins. Liberty Seated Dollars, No Motto and With Motto receive further adjustments in MS61 and MS62, after having undergone a positive Bid revision earlier this year. Among the higher graded examples receiving attention this week are Seated Half Dimes, No Drapery; Seated Half Dimes, Stars; and Seated Dimes, No Drapery, all in NGC holders. Mint State Gold Type is bucking the trend in the lower Mint State grades. With Gold Spot down significantly, now at $1,318 per ounce, the lowest point in some four months, it's no surprise that weakness is found in Eagles and Double Eagles, primarily in grades MS61 thru MS63. Buffalo Nickels continue as a very under supported segment of the sight-unseen rare coin market. That said, this lack of support doesn't translate necessarily into transactions occurring at ever-decreasing levels. An example of the 3 Legged 1937-D in NGC MS65 is being offered at $25K wholesale against a $10K sight-unseen Bid, and $4,500 versus a $2,700 Bid two grades lower. In terms of support, Mercury Dimes are weak. Wholesale offers to sell such material, however, from less expensive to mid five-figures, tend to align more realistically with published Bids. Examples include the 1918-D in a PCGS MS65FB holder, offered at $19,950 and an '18-S with the same grade at $4,705.

When one considers the overall absence of minus signs, and the strong numbers in this week's Market column, the rare coin business is very healthy. Even as metals have been volatile, and dropping lately, we have scoured the marketplace and discovered the lowest priced examples from the real world of rare coin trading, and published this data in the Market column. There is no denying the rare coin market strength, both top and bottom, when noting that most of these transactions garnered much more than sight-unseen Bid.

PCGS — Professional Coin Grading Service, Newport Beach, CA (800) 447-8848

NGC — Numismatic Guaranty Corporation of America, Sarasota, FL (800) 642-2646

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" – Lowest asking price during the *w*eek prior to publication (week old); "**m**" – Lowest asking price during the previous three weeks (*m*onth old); "**t**" – *T*rade during the most recent month; "**lm**" – Lowest asking price appearing *l*ast *m*onth; "**lt**" *T*rade appearing *l*ast month; "**ot**" *T*rade older than 2 months; " " a blank, for all Market prices older than two months; "**a**" for auction transactions; "**oa**" – auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MORGAN DOLLARS

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars will be listed monthly in a supplemental insert. CDN (*Greysheet*) Bids have always represented fully, deep mirror prooflike specimens.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

CERTIFIED COIN DEALER newsletter

*CCDN — a weekly report on the **Sight-Unseen** certified market published by the Coin Dealer Newsletter (est. 1963)*

Vol. XXVI No. 5 | February 4, 2011 | Single copy price $4.00

Two-Tier Market Grows Gold Type Soft

Certified coins designated with the + qualifier, or coins having received CAC approval, and sometimes both, are entering the channels of numismatic commerce in numbers large enough to see outlines of an emerging picture – the landscape is in view, and it looks pretty good. Mainstream market participants on both sides of the aisle – dealers and collectors – are embracing the new grading paradigm. Dealers are reporting they can sell the coins already "made" to their clients and not have to invoke the song and dance routine that often comes with getting collectors onboard. Collectors are speaking with their hard-earned money.

The current situation is nowhere near equilibrium – premium quality coins might continue to trade at levels that in retrospect may be perceived bargains, others less so. There is a downside however: genuinely average coins appear to be more in the climate of the Bids representative of sight-unseen levels, where there is no regard for the individual merits of a coin. The recently concluded Goldberg sales, which tallied over $5 million, provide dramatic evidence for both tiers of the current market – the emerging one for PQ material, and the traditional arena dealing with average coins. In the past two months, particularly in evidence at the FUN Show, large numbers of coins have been offered that were already ensconced with the + qualifier and the CAC bean affixed prominently on the plastic. At the end of the day, conditional rarities are the ultimate benefactor of the new grading structure. A textbook example of a conditional rarity is the 1886-O Morgan Dollar at the MS65 level. In MS64, relative to its peers, it is only a minor standout. PCGS has made 205 and NGC another 86. One grade higher and the pops are 2 at PCGS, and 0 at NGC. *CCDN* Bid for PCGS examples is $5,400 in MS64 and $109,000 in MS65; and for NGC, Bid is $5,600 in MS64 and $109,000 in MS65.

This week's market report, which includes the ANACS/ICG installment, is indicative of the realigning or reshaping in response to the growing two-tier market. Then too, there is a decent amount of ordinary sight-unseen Bidding taking place. Generic Morgan Dollars, which continue their aggressive advance this week, record higher Bids for an assortment of issues, including the 1921, and common date MS64s now Bid at $62, and a select group of slightly better dates, including the 1878-CC and 1891-CC in MS61 and MS62. Peace Dollars lose some ground in Gem condition, slipping to a $110 Bid. A rather strong contingent of advancers greets the reader of the ANACS/ICG Dollars charts. Some declines adhere to ICG coins certified at the MS66 plateau, while ANACS possesses only a single decline in the same grade. Silver Commems head into the new world view with the 1892 and 1893 Columbian Exposition Half Dollars gaining ground in MS63 and MS64, now reaching $45 and $80 for examples of PCGS and NGC. Gold Commems maintain ongoing, across-the-board support with a few modest declines in place. Concerns about a two-tier market are perhaps less pervasive in this tightly-focused segment. Mint State Copper Type receives extraordinary attention, beginning with the Draped Bust Half Cent design, as well as multiple Large Cent Types, and near-kin, Copper-Nickel Flying Eagle Cents, continuing thru to Indian Head Cents. There is very little to report in the way of downward revisions. Gold Type is covered in minus signs like a snowstorm, but while completely covered, some believe it is on the surface only, with a defrosting on the way. No dramatic or cataclysmic adjustments are recorded. Proof Type exemplifies the shift toward a two-tier market. Coins that aren't quite "dogs" but don't meet PQ criteria are surrendered, if not at a discount to Bid, somewhere in the neighborhood. Some old-time dealers realize that it is better to be done with such material and move on to more productive sales channels than to wait out for a customer that may never materialize. The suite of charts that includes Buffalo Nickels, Mercury Dimes, and Walking Liberty Half Dollars reflects very similar trading activity. No particularly intense or new Bidding to report while recent sales account for a trickle of minus signs. Select Walkers certified by ANACS/ICG post a few winners this week. Thoroughbred issues like the 1918-D are now Bid $750 for an ANACS MS63 example, as is the 1939-S, which has increased 10% from our last report in MS63 for both ANACS and ICG.

WALKING LIBERTY HALVES

If your coin will stand on its own merits regardless of the certified grade, a higher *CDN* Bid may be more indicative of current market value.

Generic Dollars, At It Again
Collectors Hungry For Plus & Beans

February has quite a bit in store for the intrepid and energetic coin dealer. A short recovery from the Long Beach show will take place before the action ratchets up once again. Sales from this month's expo, and those surrounding it turned out to be quite a success with combined totals of nearly $14 million in auction prices realized. Coins graded with a + and/or bearing the CAC bean were represented at these recent auctions and generally brought strong prices. Coins that had both the + grade and the CAC bean sold for dizzying amounts. See some examples from the Heritage sale in the list below. In such a hot and busy market, dealers have little time to put their feet up. The St. Louis Numismatic Association's 47th Annual Coin Fair is set for February 18-20. Shortly after, PCGS will host their Members Only event in Las Vegas, February 22-25 at the Venetian. Then it's the 48th Annual LVNS show beginning March 3 at the Palace Station, also in Las Vegas.

Generic Morgan and Peace Dollars are still leading the sight-unseen market forward, as they have since late last year. A full 150 plus signs grace the Morgan Dollar chart, and another 16 filter thru the Peace Dollar contingent. Nearly every listing that is targeted with a higher Bid is considered a common date. Bids are higher in the MS63, MS64, and MS65 grades, the new Bid levels are: $42, $63, and $134, respectively. On the Peace Dollar chart, MS63 and MS64 grades are the higher Bid participants, at $37 and $44. Even after four months of steady increases, Gems are still well below their strong, sight-unseen levels from June of 2006. Morgans were Bid $156 in MS65 with Peace Dollars at $140. Premium quality generics are beginning to get some attention as well by way of higher, sight-unseen Bids. Gem untoned Morgans are Bid $138 for PCGS/NGC +; $145 for PCGS/NGC with CAC and $150 for PCGS/NGC + with CAC.

Mint State Type, some claiming it is the heart and soul of the rare coin market, uncovers at least one dealer Bidding higher for examples of the 1839 No Drapery Liberty Seated Half Dollar graded MS61 and MS62 by NGC. The new higher sight-unseen Bids in place are $3,000 and $3,500 for this sometimes overlooked and underappreciated one-year design Type. The Type boasts a Census of five in MS61 and six in MS62. Combined populations are 15 in MS63, 11 in MS64, 4 in MS65, and none higher. 1795 Flowing Hair Half Dollars are a de facto one-year Type and offer a similar population profile as the 1839 No Drapery Half. The NGC pops for the 1795 Flowing Hair Half are eight in MS61 and four in MS64. Mint State Gold Type is mixed with a downside bias evident in the number of decliners as well as the relative magnitude of the Bid adjustments. Gaining ground are mostly generic Double Eagles, with a nod tossed in for $10 Libs With Motto. The downside is more evenly distributed throughout the ranks of denomination and grade. Proof Type coins were offered in decent quantity over the course of the recent two auction firms' sales. This segment of the market has held up well with only seven decliners. An 1882 Trade Dollar certified PR66 by NGC sold for $6,910 though a sight-unseen buyer remains visible for $7,000. Proof Gold Type succumbs to its own hype - a few select issues that were heretofore not supported in the sight-unseen marketplace, sold for a discount, and the new levels reflect revisions that take into account all relevant activity. Walking Liberty Half Dollars are a part of the striding contingent of generics recording increasing Bid movement. Bidding activity targets slabbed MS64s and MS65s, with the new Bids at $46 and $89. A number of lower range five-figure Walkers sold at auction in the past week with none selling below sight-unseen Bid.

Generic Dollars	10/1/10 Bid	2/11/10 Bid	% Change

PCGS — Professional Coin Grading Service, Newport Beach, CA (800) 447-8848

NGC — Numismatic Guaranty Corporation of America, Sarasota, FL (800) 642-2646

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

To a Coin Collector, Confidence is Priceless

Everyone wants to be confident about the quality of a coin. When it's a CAC-verified coin, you can trade with confidence.

Whether you're a novice or advanced collector, you know that quality is what determines the value of a rare coin. The problem is, within any certified coin grade, not all coins are "solid" quality coins. Now there's an easy way to identify coins that are solid for the grade - just look for the CAC verification sticker.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade. What's more, CAC is a powerful market maker for CAC verified coins. In fact, CAC has recently purchased over $100,000,000 worth of CAC verified coins.

Want confidence in the value of a coin? Look for the CAC sticker.

For more confidence in the value of a coin, look for the CAC green sticker.

CAC®

MERCURY DIMES

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

WALKING LIBERTY HALVES

If your coin will stand on its own merits regardless of the certified grade, a higher *CDN* Bid may be more indicative of current market value.

[illegible] JANUARY 2010

MARKET CONSOLIDATES
PRIMARY STRENGTH DISPLAYED AT AUCTION

ACTIVITY
. . .across the market

by Kevin Foley

The outlook for the collectable currency marketplace appears materially brighter than at this time one year ago. As 2008 drew to a close the peak levels of an overheated market had been reached and were clearly a thing of the past. Transactions were continuing, both as to their overall numbers and the levels at which they were taking place. A general air of trepidation as to what the future held overhung the market. Dealers were reluctant to buy, for fear that more attractive prices would likely be available from the simple expedient of waiting. Buyers were confronted with unsatisfactory price levels, both with untrusted auction reserves and pervasive sale offerings at yesterday's much stronger prices from sellers reluctant to accept the sad, yet undeniable reality that their stock was no longer worth what they had paid. Indeed it was difficult to know where levels really were, as those who remained market makers bought and sold at what the current interplay of supply and demand dictated, while others sought to transfer the consequences of a declining market by shifting inventories onto the shoulders of buyers less enlightened of the new lower levels than they should be. The one bright spot yet evidence a year ago was that auction sell-through rates remained at a higher level than might have been expected in a market that was truly collapsing, rather than simply undergoing a price correction to rebalance supply and demand at more current price levels.

As we move on to the new year, what might to some have seemed a looming depression in the numismatic world has clearly not come to pass. The various auction companies active in the currency trade are conducting sales consistent in size with their offerings of a few years ago, although the product mix has clearly changed. Ultra rarities that were commanded small six figure and higher prices are far less often available at auction now, as sellers of such items wait for a hoped for return to higher levels for such items. While overall prices undeniably remain significantly lower than two years ago, auction sell-through rates, a real measure of the balance between seller and buyer price expectations, continue to suggest growing levels of underlying demand, prevented by the lower prices currently in effect.

LARGE SIZE TYPE NOTES

Prices for Large Size Type continue to slowly recover, rather than continue to fall. PCGS and PMG certification has become a necessity for any item represented as being some degree of Uncirculated, indeed driven by the concept of registry sets, where buyers compete against each other to claim boasting rights to the finest holdings in various categories, the two certification firms have unwittingly served a key way of promoting demand for their product at the very end of the marketplace where actually exists the most logical and useful demand for their services, i.e. the upper end of the necessarily somewhat subjective quality spectrum in the 11 point Uncirculated range, where a single point can mean an especially significant difference in what a buyer might be willing to pay based solely on the third party grade label at or [illegible] as an item [illegible] grade [illegible] as an item [illegible] populates at [illegible] about examples [illegible] and as no offers on the single [illegible] have additional [illegible] as an [illegible] regularly set buyers [illegible] such grade [illegible] [illegible] buyers [illegible] sharpen the shape of the price gradient and thus [illegible] as an [illegible] value of third party grading.

SMALL SIZE TYPE NOTES

Price levels here also continue to recover, with significant [illegible] being focused on [illegible] and fancy serials, as there as well as [illegible] Star Notes. Indeed the marketplace for low and fancy serials, once almost a curiosity where items exponentially rarer than many [illegible] and many items of the same type sold at relatively modest premiums has now expanded to the point that there are multiple market makers in this specialty, and it has become a real mainstream area appealing to a much broader purchasing base than applied a decade ago. While third party [illegible] here has not penetrated here to the same extent that it has in the large size specialty, a trend in that direction is [illegible] inserts present, and premiums at the upper end of the [illegible] uncirculated spectrum are widening for such certified material, especially [illegible] serials by [illegible] and [illegible] Star Notes remain a popular collector specialty.

FRACTIONAL CURRENCY

Fractional currency remains very much a collector [illegible] as opposed to a speculator dominated [illegible] area, with price levels [illegible] attractive material of a given scarcity remaining well below that of large and small size type Notes. [illegible] are rare items here remain available at auction at price levels that are a small fraction of large Note Type material of [illegible] populations. Excepting really well centered [illegible] regardless of [illegible] must continue to generate significant demand and are easily saleable even when somewhat aggressively priced.

NATIONAL BANK NOTES

National Bank Notes, [illegible] at mid-pile geographic specialty areas, remain more spotty than the [illegible] collecting specialties. Scarce to rare material from in demand states can still [illegible] strengths sometimes surprisingly strength at auction, while material from areas enjoying a less robust following will [illegible] only levels that can leave sellers feeling [illegible] here have been frustrated and quite disappointed. It can be a hard lesson to learn in any collectables marketplace, but there is a real distinction between what sellers think something ought to be worth and what it currently is worth based on the interplay of potential owners competing against each other at auction. What the seller paid, what he wished, or what he thought the item should be worth, is really quite irrelevant to the entire process. Some [illegible] seem to figure this out.

MISCELLANEOUS

Obsolete[illegible] continue to be a bright spot in the market with rare material enjoying a broad and growing demand. This remains an area driven by informed collectors with very little involvement by the third party certification firms. The [illegible] is for [illegible] [illegible] marketed as "50" or higher to buyers more impressed by the certified grade label than the ease of challenge of locating and acquiring an item.

[illegible] [illegible] [illegible]

The *Greensheet* reports the national currency market on a monthly basis

. . . is a Monthly Publication that is the most COMPREHENSIVE and UP-TO-DATE pricing guide available in today's ever-changing field! DEALER-TO-DEALER BID/ASK Charts cover all of the following areas:

Vol. XXVI No. 7 | February 18, 2011 | Single copy price $4.00

Generic Dollars Doing Cartwheels
$20 Saint Trades Sight-Unseen For $45K

About one month away, the community's elite, professional dealers, collectors, researchers, and their families will descend on Sacramento, CA for this year's installment of the ANA National Money Show set for March 17-19. At the forefront of nearly every dealers' concerns is the daily gyrations of the precious metals complex - Gold, Silver, Platinum and Palladium - the first two having a large impact on the sight-unseen market for certified coins. Claiming a world record high on January 3, 2011 upon closing at $1,423, Gold Spot plummeted $44 to close the following trading day at $1,379. Plotting a downward trend, the year's nadir occurred January 27, when after another lackluster performance, Spot closed at $1,318 to refrains of "here we go again", with traders starting to fear another Gold debacle. Climbing a wall of fear, Gold moved up one day then down the next, the ups winning out, so that a few short weeks later, an ounce of Gold is now pegged at $1,385. Silver has been the real performer if we consider the metals market only. Just like that, Spot closed at $31.57 February 17, good enough to notch another 30 year high. Not surprising then that the week's movers and shakers are directly tied to the Spot metal prices; some more in spirit than fact, but it's working to generate an exciting sight-unseen marketplace.

Generic Morgan and Peace Dollars continue their climb upward, collecting advances and pushing Bids to still higher levels. Morgans in MS63 are Bid at $43 and $225 in MS66. Peace Dollars are up to $370 in MS66. Bid increases for generics from both series have been dramatic, especially when looking back just four months ago, at a time when Bids for Morgan Dollars resided at $35, $42, $112, and $180 for the least expensive examples grading MS63 thru MS66. Today, those Bids are perched at $43, $63, $134, and $225. Common date PCGS Peace Dollars in like grades were $25, $35, $105, and $375. Now, Bids stand at $37, $44, $110 and $370.

Silver Commems, apart from a few tweaks to higher ground, including the Lincoln Centennial, are quiet this week. Marketmakers might already have hunkered down to take a close look at the transactions occurring electronically as well as the auction offerings before settling on a fully developed Bidding strategy. $50 Pan-Pac Gold Commemoratives explode as PCGS certified examples in grades MS63 thru MS65 post Bid increases that range from a sturdy 18 percent to a massive 36 percent, perhaps the most interesting increase adhering to Gem $50 Rounds where the new, higher Bid is $135,000. Only a single sale at retail public auction of a certified Round Gem occurred in the last year for $115,000, graded by NGC, and approved by CAC.

Mint State Gold Type is home to numerous Bid increases this week, and they are of two flavors. Primarily, the $20 Saint-Gaudens chart listing the series by date and mintmark published once a month is testimony to the positive change in direction the market is taking. Generic Double Eagles are advancing across the board. Activity on the CCE trading network reveals over $242,000 in sight-unseen trades this past week, including a 1907 $20 High Relief Saint grading PCGS MS65 for $45,000 as a Bid was hit. Interestingly, of the total trades from last week, $95,000 in Asking prices were executed. Dealer interest is now targeting Type I and Type II $20 Libs in NGC grades MS61-MS62 by way of higher sight-unseen Bids. See chart herein for a snapshot of the NGC Census data.

Mercury Dimes underwent a positive revision for the common dates of the series. Higher sight-unseen Bids have been recorded for NGC grades MS64 thru MS67, though Fully Split Band examples are left unchanged. Walking Liberty Half Dollars enjoy advances for common date MS64s residing in NGC hardware, which move up to $47, while NGC Superb Gems achieve an increase to $430. High-grade examples of the Type reflect volatility over the years, when they were Bid $375 in February 2008, then reaching $600 soon after. From here, they gradually declined to $415 in April 2010. PCGS examples continue to have a sight-unseen Bid of $650 for any Superb Gem, regardless of what it looks like.

NGC — Numismatic Guaranty Corporation of America, Sarasota, FL (800) 642-2646

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

Bulk Submissions Have Never Been Easier

Scott Heller,
Director of Operations

Throughout his 18 years at NGC, Scott has managed and overseen thousands of bulk and prescreen orders. His in-depth knowledge of the numismatic community and the certification process is invaluable to the growth of your business.

Get personal consultations from industry expert Scott Heller.

For years, NGC has led the industry with consistent and accurate grading, excellent customer service and fast turnaround times — for an unbeatable value. We also offer a direct liaison for professional dealers interested in bulk submission. Scott Heller is uniquely qualified to personally assist you with bulk submissions, and will even travel to your location for on-site consultations.

To discuss your options, contact Scott directly at sheller@NGCcoin.com or 1-800-NGC-COIN (642-2646).

NEED TO MAIL?

Need to contact America's leading numismatic dealers? Make your advertising and postage dollars count with the nation's best dealer listing. The company name and numismatist sections of the

2010 Numismatic Dealer Directory™

are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,300+ current names and addresses. And ***current*** is a promise taken seriously — the database is updated ***daily***. All for only $325 — well below the mailing industry standard of $75/thousand.

To make this offer even more attractive, labels are available in both First Class order or Presorted for Basic Bulk Rate mailings: You can save more than $950 over First Class postage stamps! Need just one state or region? Need a trial sample? Order the states you need and pay only $25, plus 7¢ per label.

YES, I want to order mailing labels averaging 5,300+ names from the 2010 Numismatic Dealer Directory. I understand that my $325 fee entitles me to only one usage of these names. _____ signature

❑ My check for $325 payable to CDN, is enclosed.

❑ Only send these states _____ and charge me 7¢ per label, and a one-time $25 break-out fee.

WALKING LIBERTY HALVES

If your coin will stand on its own merits regardless of the certified grade, a higher *CDN* Bid may be more indicative of current market value.

Dollars Stay Aflame
CCE Opens Generic Market

Such a tremendously active sight-unseen market has taken place this week. Beginning on Monday, not even a holiday or closed stock market could stop the action. Silver was the name of the game to start the week, incredibly, trading for over $34 an ounce overseas. Here at home, this has resulted in several semi-key and key date Dollars to change hands, sight-unseen through the electronic trading networks. Additionally, prices paid for the common dates, or generics, continue to rapidly escalate with no apparent let-up in sight.

Pre-1921 Morgan Dollars are once again higher virtually across-the-board. MS63 examples are now Bid at $45 and one step up in MS64 they reach $65. Examples in MS65 and MS66 remain the same at $134 and $225, while MS67s graded by PCGS are now $20 higher, Bid at $575. Dealers are also in need of CAC approved generic Gem Morgans and will pay $160 apiece for up to a thousand, regardless of what they look like, as long as they have the green bean. 1921 Morgans, the red-headed stepchild of the series are steady this go 'round after numerous increases. Peace Dollars are also experiencing continued hightened activity this week. Bids for generics here are still moving higher, in addition to a number of slightly better dates that changed hands at the beginning of the week. These sight-unseen Bid jumps are targeting thousands of examples in grades MS61-MS65 with MS63s escalating 11% from last week to $41. Silver Commems were just as active as the cartwheels on President's Day, with a slew of Bids being hit, resulting in successful trades through the network. Interestingly, all these coins that changed hands were PCGS slabbed, with the vast majority possessing the CAC sticker. Other market segments, including Proof Type, Buffalo Nickels, Mercury Dimes, and Walking Liberty Half Dollars are subdued with only a single date within Mercury Dimes declining.

When trading resumed on Tuesday, the numismatic focus shifted towards Gold, likely the result of Spot rising above $1,400 once again, and Silver falling below $33 an ounce. Some market participants feel the turmoil in the Middle East has necessitated the resumption of safe haven buying of Gold. In fact, only Gold Type has traded through the Certified Coin Exchange these past three days. Generic Double Eagles are back in the driver's seat with increases recorded for examples graded MS61-MS64. $20 Saint-Gaudens are also higher in MS65 and MS66, at $1,980 and $2,500, respectively. MS65 Type III $20 Libs, which are Bid at $3,200 to $3,300 for NGC and PCGS examples, have a combined population of over 12,500 compared with the 162,000 $20 Saints in the same grade. The number one gainer within Gold Type is $2½ Libertys graded MS66 by NGC, which have advanced 15% to $1,725. The high sight-unseen Bidder here, by way of CoinPlex, will take at least ten at this level—no questions asked, just ship for a check. A quick glance at the *CCDN* Market column reveals that these coins have recently sold at public auction for $1,495. The following two on the list of gainers for the week are $10 Libs and $10 Indians in PCGS MS65.

The market column, which is often overlooked, provides a wealth of information on the lowest priced coins we can find in the entire marketplace. If an area of the market contains a majority of "a" symbols, this essentially conveys that the least expensive way to acquire these coins is at auction. If a market column is void of symbols and/or prices altogether, you can rest assured that this material is scarce and doesn't come to market often. In contrast, if the market column is loaded with "w" symbols, these coins are readily available. Lastly, if a number of "t" symbols exist in the market column, this material trades with regularity. This is priceless information, if used diligently, for anyone involved in buying or selling coins.

The Certified Coin Exchange has made some recent improvements to their Big Generic Market, which was originally launched in 2007. This new trading platform was created to facilitate a more efficient way to trade the most generic of material. Initially, only four dealers, considered marketmakers, participated on this platform, and reportedly paid $10,000 a year for the privilege. Now, under the new rules, all CCE members can take part in the Big Generic Market trading activities. One of the reasons for the creation of the Big Market in the first place was to keep dealers from making themselves the highest Bidder and only accepting a single coin, thereby being inaccurately considered as a marketmaker, setting an unreliable value. Dealers Bidding on Double Eagles in the Big Market must be willing to accept a minimum of twenty generics thru grade MS64. The program has worked very well, with nearly $50 million in trades so far. Additional improvements include allowing several more coins into the platform as generics. These include $10 Indians, $10 Libs, and $5 Libs in grades MS62 through MS65, as well as the MS65 grade for Type III $20 Libs.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows, and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" – Lowest asking price during the week prior to publication (*w*eek old); "**m**" – Lowest asking price during the previous three weeks (*m*onth old); "**t**" – *T*rade during the most recent month; "**lm**" – Lowest asking price appearing *l*ast *m*onth; "**lt**" *T*rade appearing *l*ast month; "**ot**" *T*rade older than 2 months; " " a blank, for all Market prices older than two months; "**a**" for auction transactions; "**oa**" – auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MORGAN DOLLARS

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars will be listed monthly in a supplemental insert. CDN (*Greysheet*) Bids have always represented fully, deep mirror prooflike specimens.

To a Coin Collector, Confidence is Priceless

Everyone wants to be confident about the quality of a coin. When it's a CAC-verified coin, you can trade with confidence.

Whether you're a novice or advanced collector, you know that quality is what determines the value of a rare coin. The problem is, within any certified coin grade, not all coins are "solid" quality coins. Now there's an easy way to identify coins that are solid for the grade - just look for the CAC verification sticker.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade. What's more, CAC is a powerful market maker for CAC verified coins. In fact, CAC has recently purchased over $100,000,000 worth of CAC verified coins.

Want confidence in the value of a coin? Look for the CAC sticker.

For more confidence in the value of a coin, look for the CAC green sticker.

CAC®

"Because Confidence is Priceless"

the COIN DEALER newsletter

CERTIFIED COIN DEALER newsletter

*CCDN — a weekly report on the **Sight-Unseen** certified market published by the Coin Dealer Newsletter (est. 1963)*

Vol. XXVI No. 9 | March 4, 2011 | Single copy price $4.00

New Records For Precious Metals Common Cartwheels Surpass 20-Year High

It is with a real sense of relief that the sight-unseen market for certified coins is doing so well, especially with the realization that the future course of the economy is so terribly uncertain as civil unrest in the Middle East intensifies. Ongoing concerns about the lack of worthwhile coins available for purchase is the chief artery blockage that many believe prevents the rare coin market from skyrocketing. How unavailable are coins? CCE discloses some $23 million in Bids for the Mint State Type segment, an area that spans a wide range of material indicative of the interests of collectors. Compare that with only $92,000 worth of posted Asks in the same area. At the opposite end of the spectrum, one finds Mint State Gold Type with $34 million in declared Bids and some $4.4 million in Asks, a segment that most would agree is heavily characterized by the presence of generic coins.

With Silver setting a new 30-year record of $34.42 per ounce, Morgan and Peace Dollars have easily been the primary beneficiary of this Spot spike. Sight-Unseen Bids continue to escalate week after week, with this week being no different. Generic Morgans grading MS63 are nearly 25% higher from last week, now at $56. Very Choice examples are now $76, a level not seen since May of 1990, approaching a 21-year high. Gem Morgans, considered by many to be a barometer for the generic marketplace, are now Bid at $152, up over 35% from last October, when Spot Silver was more than 50% lower, at $21.75 per ounce. MS66 Morgans are now Bid at $247, representing a 37% increase over the same time frame. Superb examples have not increased nearly as much on a percentage basis, but are still heading higher, now at $575. GSA Dollars are also active, with 1882-CC and 1883-CC examples higher at $170 and $180, respectively, if accompanied by the original box and certificate of authenticity. Marketmakers here will pay a bit more for attractive and white examples on a sight-seen basis. GSA Dollars possessing the NGC grading band remain steady for the most part with only a single decline occurring for the '78-CC in MS64. Peace Dollars have not been left out. In fact, increases of over 23% from last week are seen for MS64 examples. Additionally, widespread strength is seen in this segment across-the-board, from MS61-MS65.

Walking Liberty Half Dollars garner some serious interest this week. Dealers upped the ante on nearly the entire listing of the early issues that date from 1917 to 1919 including the Obverse and Reverse varieties of the 1917. NGC is the targeted third-party grading service of these new and higher sight-unseen Bids. The 1946-D, which some consider an underappreciated coin, has increased by as much as 10%, with Bids at $1,100 and $800 for PCGS and NGC, respectively. Generics here remain extremely strong with large volume buyers available for all grades through MS67. Proof Singles find its strongest support among the Half Dollars from 1940 to 1951, where dealers are eager to pay published Bid to secure examples from PCGS in grades PR65 through PR67.

Mint State Gold Type chart constituents undergo widespread increases in the wake of Gold's record setting Spot price of $1,437, which has since retreated to $1,416 per ounce. Gem $20 Saints are now Bid at $2,040, 3% higher from last week. The big winner, however, is the $5 Lib With Motto, which is some 9% higher for NGC examples grading MS62. $10 Libs With Motto are also increasing in the lower Mint State grades, now at $730 and $740 in MS61-MS62.

Heritage hosts the next scheduled major public auction for certified coins, set for March 17-20 in Sacramento, CA as the official auctioneer of this ANA show. A few of the many highlights from the sale are included herein. For those late-comers who have yet to get a table at the ANA show and still wish to do so, an opportunity exists. While only a few tables are available for the full three-day event, there is also the offer to purchase a one-day table for as little as $208. This is the first time a rental of this kind has been made available, the reason being to give beginning and/or small dealers a chance to participate at such a large and prestigious show.

PEACE DOLLARS

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

Vol. XXVI No. 10 | March 11, 2011 | Single copy price $4.00

ANA Money Show Up Next
Higher Sight-Unseen Bids Target Type

Most major dealers are already in Sacramento, well ahead of the ANA National Money Show that will be held March 17-19. Pre-ANA activities include participation in the pre-show being held at the Red Lion hotel in addition to viewing auction lots and private trading. Heritage will conduct the official on-site auction anchored by the Dusty Gibson and J. David Bonn collections, beginning March 17. It has been over a decade since the last time an ANA was held in Sacramento, when some 10,000 attendees visited over a three-day period. Based on their prior experience, many dealers are anticipating a successful show and are extremely optimistic.

Activity within the sight-unseen marketplace is relatively strong, especially in Unc Type (Gold, Silver and Nickel) which is somewhat unusual heading into a national coin show. Many Bids are often lowered if not removed altogether by dealers from the trading networks as to not be over-extended while away. Silver Commems are quiet, except for a couple minor upward adjustments taking place for the Booker T. Washington and Washington Carver issues, which are now Bid $13 in MS61. These increases are directly related to Silver Spot's recent spike. Gold Commems are also quiet, with only a single decline recorded for the 1905 Lewis & Clark Expo Gold Dollar in PCGS MS63. These jewels have a combined pop of 662 with less than a dozen having the + or CAC quality identifier. Generic Dollars have dominated more than a fair share of the sight-unseen headlines this year. The surge actually began last October when Silver first crossed the $22 per ounce threshold. After months of successive increases, with issues in MS64 jumping nearly 70%, generics are now holding steady overall at these higher levels. Within Morgans, a handful of slightly better dates are moving just a bit higher, affecting every Mint State grade. Buyers are now offering to pay in advance of Type Bid for 1923 Peace Dollars in MS63 thru MS65, and the 1923-S in MS63. Although there are no decliners in this segment, an NGC MS62 example of a 1928-S realized $405 at public auction, which is $75 less than dealers are willing to pay *sight-unseen*. This irregularity of leaving money on the table is occurring less frequently than over the last several years. Outward signs of activity in the marketplace for Prooflike Morgan Dollars are limited to a single minor adjustment of the 1891-CC where Bid has been revised to $550 in MS63PL. About half of the 300 listings have visible buyers present covering all three grades here. Common dates clock in with Bids of $59, $91, and $185 for MS63PL, MS64PL, and MS65PL respectively. Ordinary strikes are Bid at $56, $76, and $152, perhaps making Choice PL coins attractive on a population versus Bid level comparison. The early issue Walkers graded MS61 through MS66 continue to attract buyers at current Bid levels, particularly those in NGC slabs. The always-in-demand 1918-D posted plus signs this week in all Mint State grades except MS67, a pop 0 coin; the 1918-S is also up slightly in NGC grades MS61 through MS63. PCGS graded Walkers held their ground, with no significant changes having occurred on either the downside or upside.

Mint State Type grabs headlines this week, notching over 80 advances, hitting numerous Nickel Types and a very wide variety of collector oriented Silver Types. Heading the positive march forward are Barber Dimes and Quarters in grades MS61-MS65. Choice Barber Quarters are now Bid at a higher level of $320, a 24% increase. Seated Dimes and Quarters along with Standing Liberty Quarters round out the Silver Type issues that are escalating in Mint State grades through Gem. Type Gold remains robust with activity as Gold Spot continues to set new all-time world records, nearing the $1,445 level in intraday trading before receding to $1,412. Generic Double Eagles received the lion's share of trades this week totaling over a half million dollars in CCE transactions alone. A handful of better date $20 Saints also changed hands through the sight-unseen trading exchange, the most noteworthy being the $10,000 paid for a 1924-D grading MS64 by NGC. Proof Type is relatively quiet with dealers in more of a wait-and-see mind-set heading into the big Sacramento show. Proof Gold Type is a segment characterized by a legacy of solid Bid support. However, this material usually trades hands face-to-face on a sight-seen basis or via the public auction platform. Buffalo Nickels are slumbering, awaiting the auction when a Gem 1937-D 3-Leg Buffalo made at PCGS and wearing the CAC bean will be offered. A Choice 3-Leg is also included in the sale with a 1918-S PCGS MS64 and a 1921-S PCGS MS63 CAC rounding out the high-end Buffalo Nickels offered. Mercury Dimes are quiet prior to the convention, with no significant revisions taking place. Mid-range Mercs are in play with a large contingent of MS64FB and MS65FB slabs from the teens and twenties, and both branch mints set for auction including a '19-D, a '21, '23-S, and '27-S.

Following the numismatic extravaganza in Sacramento, many dealers will take stock of their unfulfilled want lists and attend a few local and regional shows, all the while preparing for the next national show on the agenda, that being the highly successful and popular Whitman Baltimore show, March 31 through April 3, featuring an auction by the newly formed Stack's Bowers Galleries.

PCGS Professional Coin Grading Service
Newport Beach, CA (800) 447-8848

NGC Numismatic Guaranty Corporation of America
Sarasota, FL (800) 642-2646

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MORGAN DOLLARS

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars will be listed monthly in a supplemental insert. CDN (*Greysheet*) Bids have always represented fully, deep mirror prooflike specimens.

NGC EARLY RELEASES

The designation you can trust — now available for all modern coins.

To qualify for this designation, early-issue coins must be in our hands within the first 30 days of release, making NGC Early Releases the strictest designation of its kind.

Stay tuned for eligibility requirements and cut-off dates. NGCcoin.com/earlyreleases

Official Grading Service of
NUMISMATIC P·N·G

To a Coin Collector, Confidence is Priceless

Everyone wants to be confident about the quality of a coin. When it's a CAC-verified coin, you can trade with confidence.

Whether you're a novice or advanced collector, you know that quality is what determines the value of a rare coin. The problem is, within any certified coin grade, not all coins are "solid" quality coins. Now there's an easy way to identify coins that are solid for the grade - just look for the CAC verification sticker.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade. What's more, CAC is a powerful market maker for CAC verified coins. In fact, CAC has recently purchased over $100,000,000 worth of CAC verified coins.

Want confidence in the value of a coin? Look for the CAC sticker.

For more confidence in the value of a coin, look for the CAC green sticker.

CAC®

"Because Confidence is Priceless"

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

WALKING LIBERTY HALVES

If your coin will stand on its own merits regardless of the certified grade, a higher *CDN* Bid may be more indicative of current market value.

Lorena Washington, Coin Dealer Advocate

If You're a Coin Dealer, You Need To.

If you're a coin dealer, your mission is to sell coins. Lorena Washington's mission is to make it easier for you.

Right now, Lorena's job is to make sure that there are no empty tables at the upcoming **Long Beach Expos, June 2-4 and September 8-10, 2011**, and show management has given her all the ammunition she needs. And donning her trademark pink vest at all major coin shows – you can't miss her.

Our new Section F ensures that for an absolutely minimal investment, you'll be in the house. It's at the back of the room, but you will still be able to enjoy the many benefits of the Long Beach Expo, including the ability to interact with *hundreds* of dealers and *thousands* of collectors. You can even order a table in Section F by the day if you're so inclined, or if you sign a three-year contract, your last table is FREE! We are also offering discounted Early-Bird Dealer Ribbons, a Wednesday Post-setup Beer Fest, and if you place your order directly with Lorena at an upcoming coin show, she will include a nice gift basket free of charge.

Just look at these Section F prices:

Inline booths: $125 per day, $250 all three days.
Corner booths: $175 per day, $350 all three days.

But hurry, tables in Section F are first come, first served. To reserve your space or to talk to Lorena about a table in Section F or elsewhere, contact her at **805-962-9939** or **lorena@exposunlimited.com**, or visit **longbeachexpo.com**. Or better yet, talk to her at an upcoming coin show. She'll make you an offer you can't refuse.

CERTIFIED COIN DEALER newsletter

*CCDN — a weekly report on the **Sight-Unseen** certified market published by the Coin Dealer Newsletter (est. 1963)*

Vol. XXVI No. 11 March 18, 2011 Single copy price $4.00

Proof Type In Spotlight
Sight-Unseen Market Gaining Confidence

Type coins are hot, hot, hot, with solid Bidding action taking place in all grades through 67. This Type strength, which has been going on for weeks for Mint State, is spilling over into Proof Type as well. While our sheet shows multiple increases across-the-board, most of these numbers are still well below what this material routinely sells for at public auction. But at some point, these higher sight-unseen Bids may entice sellers who don't want to deal with the consignment process. The ANA National Money Show is in full swing in Sacramento, which makes such higher Bids on the electronic trading networks rather surprising. Usually, the opposite is true, as dealers often lower or remove their Bids entirely before and during a large show.

Silver Commems remain relatively quiet as they have for some time now, with no real discounting occurring, nor are there any higher sight-unseen Bids. However, nearly a dozen PCGS examples did sell through the electronic trading network this week, including a 1923-S Monroe for $1,200 in MS65 on a sight-seen basis. Gold Commems are equally slow, with no changes taking place in this report. This segment still has buyers at or near sight-unseen levels published herein. Morgan Dollars, which have been on a tear for several months now, have increased by as much as 44% for common dates since January. This week, they are taking a breather, though dealer Bids remain active and viable with thousands of coins still trading at these levels. Spot Silver has plummeted to below $34 from its 31-year peak of $36 per ounce established last week. Since the year began, a handful of Dollars are actually lower, including a few DMPLs, which have declined by as much as 15%. Proof Morgan Dollars are now receiving some much needed positive attention like their Mint State brethren, after four years of fundamental stagnation, and have increased by 27% in PR62. Common date Peace Dollars in Choice and better are similar to Morgans in that they've taken a breather after several months of successive increases. Those graded in the lower Mint State categories are still needed, and are in ever-growing demand. Mint State Gold Type has been a lackluster performer for the second week in a row on fears of declining Gold Spot, which is hovering around $1,400 per ounce, after enjoying its all-time peak at $1,437 from the beginning of the month. Since January, over three dozen issues have seen double-digit declines on a percentage basis. $5 Liberties With Motto graded MS63 by NGC represent the worst case, falling some 23% in just over three months. The scarcer Type I and Type II Twenties tell a more positive story, with MS61 and MS62 examples surging up by as much as 19% over the same time period. The majority of common date $20 Saints, along with Type III Libs are showing some weakness in this report, and are down for the year thus far.

Surprisingly, Proof Type is the leading core market segment this go 'round. This area of the market has been left out of the positive action for quite some time now, and its success this week is a welcome sight to dealers and collectors. This is a testament to the increased confidence in the sight-unseen marketplace which has been gaining ground for some time now. Marketmakers have been increasingly satisfied with the quality of material they've been receiving when their sight-unseen Bids are executed. PR64 Copper Nickel Cents (1860-1864) are 31% higher for PCGS examples, while NGCs clock in at a 24% increase. No Motto Liberty Seated Quarters graded PR63 are next on the leader board, jumping to a sight-unseen Bid of $860, up some 30%. A whopping sixty plus issues are up 10% or more in Proof Type this week, which is not often seen, especially with so many major players in Sacramento for the ANA National Money Show. Buffalo Nickels, Mercury Dimes and Walking Liberty Half Dollars remain status quo for the most part with only a couple of increases in place for PCGS Superb Walkers.

Dealers and collectors can now become members of the Certified Acceptance Corp. (CAC) if their applications are turned in by May 1, 2011. According to founder John Albanese, "We've been very busy, and we don't want to get completely overwhelmed. We've kept our prices friendly, and our turnaround times favorable, and we want things to stay that way. We're a small company, and that's the way we like it. It gives us the ability to maintain the high standards for the loyal members we already serve." Both dealers and collectors will be charged the same submission fees: $10 apiece for coins valued at $10,000 or less, $20 each for coins valued at more than $10,000. Typically, Albanese said, turnaround time is less than a week. Since its inception in 2007, CAC has processed more than 200,000 submissions with a declared insurance value totaling more than $1 billion. CAC has also purchased more than $175 million worth of coins since their inception.

Newport Beach, CA (800) 447-8848

NGC Numismatic Guaranty Corporation of America
Sarasota, FL (800) 642-2646

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Bulk Submissions Have Never Been Easier

Scott Heller,
Director of Operations

Throughout his 18 years at NGC, Scott has managed and overseen thousands of bulk and prescreen orders. His in-depth knowledge of the numismatic community and the certification process is invaluable to the growth of your business.

Get personal consultations from industry expert Scott Heller.

For years, NGC has led the industry with consistent and accurate grading, excellent customer service and fast turnaround times — for an unbeatable value. We also offer a direct liaison for professional dealers interested in bulk submission. Scott Heller is uniquely qualified to personally assist you with bulk submissions, and will even travel to your location for on-site consultations.

To discuss your options, contact Scott directly at sheller@NGCcoin.com or 1-800-NGC-COIN (642-2646).

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

NEED TO MAIL?

Save Money On Postage! We will Pre-Sort your Mailing Labels to get You the Best Rate

Need to contact America's leading numismatic dealers? Make your advertising and postage dollars count with the nation's best dealer listing. The company name and numismatist sections of the

2011 Numismatic Dealer Directory™

are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,300+ current names and addresses. And ***current*** is a promise taken seriously — the database is updated ***daily***. All for only $325 — well below the mailing industry standard of $75/thousand.

To make this offer even more attractive, labels are available in both First Class order or Presorted for Basic Bulk Rate mailings: You can save more than $950 over First Class postage stamps! Need just one state or region? Need a trial sample? Order the states you need and pay only $25, plus 7¢ per label.

YES, I want to order mailing labels averaging 5,300+ names from the 2011 Numismatic Dealer Directory. I understand that my $325 fee entitles me to only one usage of these names. _____signature

❑ My check for $325 payable to CDN, is enclosed.

❑ Only send these states _____ and charge me 7¢ per label, and a one-time $25 break-out fee.
(separate states by comma)

WALKING LIBERTY HALVES

If your coin will stand on its own merits regardless of the certified grade, a higher *CDN* Bid may be more indicative of current market value.

Silver Dollars Soar Through Stratosphere Precious Metals Trade At Record Levels

After completing the successful Sacramento ANA show, where Heritage gaveled $9.7 million in sales of certified rare coins, dealers are home planning for yet another numismatic outing, the Whitman Baltimore Expo. At last year's mid-winter ANA show, held in Fort Worth, Texas, Heritage brought in $13.6 million. The Baltimore auction last year, hosted by Bowers & Merena, totaled $8.7 million, while Stack's pre-show sale totaled $4.2 million. It will be interesting to compare last year's totals with this year's considering the merger of Stack's and Bowers, whose Baltimore auction will be held March 29 through April 3. Metals took a bit of a dip at this year's ANA show at the kick-off, and some felt that was at least part of the reason for some lackluster results. Of course, quality coins did sell well, and as with all shows, some dealers, especially those with the right stuff, had great shows. Some dealers cited the close timing of the Baltimore Expo as the reason for their poor performance at Sacramento. It will be a challenge to measure any effect the order has on the success of either show considering that the ANA was held prior to the Baltimore show this year, as opposed to last year, when Baltimore came first. Regardless, precious metals have given rise to significantly increased optimism. Gold has nearly breached $1,450 per ounce, giving birth to great excitement by approaching this psychological hurdle, and setting an all-time record high in the process. With the yellow metal never having been so high, the mood at the upcoming expo will certainly benefit. After all, Gold was at $1,118 last year at this same time, 28% lower than today's Spot. Silver is the real star here, as it has skyrocketed an amazing 127% from last year's Spot of $16.45 during the Maryland show.

Mercury Dimes are seeing quite a bit of activity for the first time in quite a long time, albeit negative by way of discounted prices realized at auction. The good news here, if any, is that these Winged Liberties are actually selling once again. A few pluses and minuses are scattered about the Silver Commems in the MS62 thru MS67 grade range as strong sight-unseen Bidding continues to focus on some of the most popular issues. An exception is the 1928 Hawaiian in PCGS MS63 which leveled back down from $2,225 to an even Bid of $2,000, a bit more than an 11% decline. The most significant change amongst the Gold issues concerns the 1916 $1 McKinley in NGC MS67, sliding down by 8% from last week's Bid of $3,250. Walking Liberty Halves remain active with brisk trading taking place primarily for common dates. This segment of the sight-unseen market did see some slight movement to the downside, notably the 1938 in NGC MS67. Another decrease, albeit minor, was posted for the 1942-S in PCGS MS65, down by $10 to a Bid of $240. Strong competitive Bidding for those really nice, high-graded Proof Singles continued this week, maintaining the demand we've been seeing these past several weeks. Nonetheless, a bit of weakness emerged insofar as its effect on PCGS and NGC graded 1941 Walkers in PR64, which are down by almost 10% from last week. To a lesser degree, some of that same weakness extended to certified specimens of the 1939, 1940, and 1942 Halves in PR64 as well. 1938 and 1941 PCGS Mercury Dimes in PR67 pulled back a bit.

Morgan and Peace Dollars have been bombarded once again with yet another round of significant Bid increases. Mint State Morgans through MS66 are blanketed with plus signs as a result of non-stop, silver-fueled demand. Generics have moved as much as 7% higher since our last report which has been a regular occurrence, nearly week after week, for several months now. Today's MS63 Bid of $58 represents a massive 45% increase in just two months. Compare this to February of 2002 when *Gem* examples were trading for $60, only $2 more than MS63s. Peace Dollars keep on rollin' this week with increases in all grades through MS65 as high as 7%. Today's sight-unseen Bid of $53 for Choice Unc examples represents a more than doubling of Bid since October 2010. Mint State Type suffers some minor setbacks, arguably the result of dealers giving up on select "dogs" now that the PQ market is finding some traction. Whether one suffers an actual loss upon the sale of such coins is probably of less impact than the associated carrying costs and the tied-up capital. In any event, a Capped Bust Half Dime MS62, a Capped Bust Dime (Large Size) MS64, and a Capped Bust Quarter MS64, all three NGC certified, among a few other Types were allowed to sell cheaply at public auction resulting in a lowering of Bid. Proof Type waltzed through the recent retail auctions. Sight-Unseen Bid levels were not tested at all in the higher grades (65 thru 67) nor for the many five-figure coins that sold, attesting to strength in this segment. With the market column appearing in this installment, there is the opportunity to review prices realized from the recent auctions for the entire Proof segment on one compact grid. As an example of what the market column has to offer, NGC Trade Dollars sold in abundance at auction in the past week, and are doing quite well across-the-board through PR67. Mint State Gold Type is considered by many to be under-performing in light of Gold Spot's ongoing record breaking levels. The charts are oddly covered with minus signs primarily from the absence and/or weakening of sight-unseen Bids combined with the sheer volume of material that sold for a discount at public auction this past week.

NGC — Numismatic Guaranty Corporation of America, Sarasota, FL (800) 642-2646

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.
Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows, and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" - Lowest asking price during the week prior to publication (*w*eek old); "**m**" - Lowest asking price during the previous three weeks (*m*onth old); "**t**" - *T*rade during the most recent month; "**lm**" - Lowest asking price appearing *l*ast *m*onth; "**lt**" *T*rade appearing *l*ast month; "**ot**" *T*rade older than 2 months; " " a blank, for all Market prices older than two months; "**a**" for auction transactions; "**oa**" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

To a Coin Collector, Confidence is Priceless

Everyone wants to be confident about the quality of a coin. When it's a CAC-verified coin, you can trade with confidence.

Whether you're a novice or advanced collector, you know that quality is what determines the value of a rare coin. The problem is, within any certified coin grade, not all coins are "solid" quality coins. Now there's an easy way to identify coins that are solid for the grade - just look for the CAC verification sticker.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade. What's more, CAC is a powerful market maker for CAC verified coins. In fact, CAC has recently purchased over $100,000,000 worth of CAC verified coins.

Want confidence in the value of a coin? Look for the CAC sticker.

For more confidence in the value of a coin, look for the CAC green sticker.

CAC®

"Because Confidence is Priceless"

LET CDN DO ALL THE WORK!

Need to contact America's leading numismatic dealers? Make your advertising and postage dollars count with America's best dealer listing. The company name and numismatist sections are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,000+ current names and addresses. And **current** is a promise taken seriously - the data base is updated **daily**. All for only $325 - well below the mailing industry standard of $75/thousand.

To make this offer even more attractive, labels are available in both First Class order or Presorted for Basic Bulk Rate mailings (you can save more than $900 over First Class postage rates!). Need just one state or region? Need a trial sample? Contact us for details!

2011 NUMISMATIC DEALER DIRECTORY

YES, I want to order mailing labels averaging 5,000+ names from the 2011 Numismatic Dealer Directory. I understand that my $325 fee entitles me to only one usage of these names. _____signature

My check for $325 payable to CDN, is enclosed.

Vol. XXVI No. 13 | April 1, 2011 | Single copy price $4.00

Morgan & Peace Prolong Surge Silver & Gold At New Highs

The Whitman Baltimore Coin Expo, March 31 through April 3, is underway, with the Stack's Bowers auction in full swing. This show, like the ANA before it, functions as a kind of barometer for the overall health of the numismatic marketplace. With this year's ANA in the books, dealers and collectors alike will certainly be paying close attention to the Baltimore show and auction results. According to reports, the first session of the Stack's Baltimore auction was standing room only, boding well for the remainder of the sale and the show. One big story buzzing around the bourse is certainly the precious metal strength, especially Silver and its effect on the soaring prices of Morgan and Peace Dollars. Silver closed at a new 31-year peak of $37.87, while Gold has recorded yet another all-time record high of $1,439.

Generic Dollars, both Morgan and Peace, have been on a numismatic tear for the last six months. Peace Dollars grading MS63 have more than doubled in this time as seen in the chart below. Last October 1, they had a sight-unseen Bid of $25, and are at an astonishing $59 now. In today's climate, it's not unusual for marketmakers to trade several thousand generic Morgan and Peace Dollars on any given day. Demand is so strong for these coins, that buyers are executing trades at other dealers' Asking prices through the dealer-to-dealer exchanges. This type of trading activity is usually only seen with generic Double Eagles when Gold Spot spikes. Bids for Dollars have escalated to the point where premiums for the slightly better than common dates have been washed away. This strength within common dates may very well trickle over into DMPL and even PL designated examples, many of which are now Bid the same as their Mint State brothers. With dealers paying over $30 for raw, Circulated examples, some may begin looking to the third-tier and obsolete grading services, such as PCI, INS, NCI and ICG. ANACS and SEGS graded cartwheels may be an even better choice for some buyers since these grading services are still in business and may offer some recourse should a problem arise.

Generic Dollars	Bid Increases Since Oct. 1 2010 MS62	MS63	MS64	MS65
Pre '21	+24%	+71%	+82%	+46%
'21 Morgan	+68%	+86%	+35%	+10%
Peace	+68%	+136%	+83%	+30%
Silver Spot +73%				

Original GSA Dollars including those with the NGC grading band, are also receiving attention from this Dollar mania, which may grow over time. Dealers are currently paying at least $165 for any Uncirculated GSA Dollar with box and certificate. CAC continues to identify quality, and buyers are paying a premium for such, to the tune of $200 for generic MS65 Morgans, $300 for MS66 and $650 for MS67s.

Despite a long absence of any plus signs across the chart, those accurately graded, high-quality Mercs, especially with Full Bands, are quick to disappear after brief exposure on auction sites and dealers' tables. Activity here appears to be long overdue as only higher Bids can eventually attract more material into the marketplace. Walkers, like Mercury Dimes, are quiet this week, holding steady across all grades. Silver Commems overall held up quite well in this report, and the current action is shifting a bit into the lower Mint State grades. Only a single decline was posted this week compared to last week's nine drops. The NGC graded California in MS61 has been reduced by $10, now Bid $150. Gold Commems are seeing the same, strong sight-unseen Bids, but here, visible buyers are more concentrated within the MS63 to MS65 grade range.

A new player in online auctions and direct online purchasing has emerged, Ian Russell, President of GreatCollections.com. The company will auction everything from Colonials to high-grade moderns, with only a 10% buyer's fee. Their current auction, which concludes April 10, includes a 1652 Pine Tree Threepence PCGS VF25 and a 1787 Massachusetts Cent PCGS AU55, CAC. The Santa Clara Expo is up next, being held April 15-17 in the dot-com capital of the world. Two famous Early American coins with a combined value of $750,000 will be on display. These two rarities, both graded by NGC, are the MS63 1792 Half Disme, and the 1776 Continental Currency Dollar, graded MS65 and struck in pewter.

PEACE DOLLARS

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over 200,000 coins with a market value over $1.1 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are only placed on quality coins.

What's more, CAC is a powerful market maker for it's stickered coins. In fact, CAC has recently purchased over $175,000,000 worth of coins.

So the CAC sticker does not add value - It is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

The CAC sticker doesn't add value, it just helps to identify a quality coin.

Generic Dollars Dominate Stack's Bowers Hammers Nearly $10 Million

Simply put, Baltimore's Expo was a smash hit. Numerous dealers reported having their best show in years, some making transactions totaling over $1 million. From sales, to foot traffic, to accommodations, you name it, people were happy and doing great business. One of the biggest surprises was that the action continued well into Saturday, when many shows often slow down, almost to a halt by noon. Not this time. Business just kept chugging right along, and many dealers happily changed their travel plans when this unexpected opportunity became apparent. Such success bodes well for the rare coin market indeed, and the $9.9 million realized at the Stack's Bowers' maiden auction certainly added optimism as well.

Increased Bids are recorded for the 1921 Morgan in grades MS61 thru MS65, for what is widely perceived as a distinct one-year Type coin, seen in the past as the red-headed stepchild in the Silver Dollar family. NGC census data reveals only 27,125 and 6,382 coins slabbed MS64 and MS65, with PCGS pops at just 18,597 and 3,472. Compare these numbers with the 1881-S, one of the most common Morgans, with a combined pop of over 165,000 in MS64, and nearly 91,000 in MS65, and the difference in rarity is quite clear. Look for the pops of such common date Morgans in lower Mint State grades to grow rapidly as slabbing them becomes much more cost effective considering today's Bid levels. In fact, a number of dealers have recently been targeting BU rolls of cartwheels for much higher prices. As we alluded to last week, PL and DMPL Dollars are now Bid higher as a result of this Morgan madness. These Mint State examples with mirror finishes still have room to move even higher, especially in Choice, which currently carry less than a 10% premium over the regular common dates. As with Morgans, it would be difficult to underestimate the momentum that is building up in the Peace Dollar series, which boasts similarly stellar performers this week. Common dates claim up to a massive 28% increase in MS66, now Bid $475, while Gems mount a 10% advance reaching $150. Some market observers believe these Dollars have moved too high too quickly, and indeed a correction is already occurring within the MS63 grade to the tune of 5%, now Bid $56. Another development is the sudden increased premium of some $30 for untoned or white Gem examples. These have historically traded for only a few dollars more for the simple fact that toning can be easily dipped away.

It was only a matter of time, with Silver bullion prices rising to nearly $40 an ounce, before even the Mercs would eventually experience a revival of some sort. Higher sight-unseen Bids have been recorded for the common date issues in grades MS64 thru MS67. This is the first time in quite a while that plus signs of any number have been seen for Mercury Dimes. Very Choice PCGS examples are now at $10, an increase of 11%. The last time these slabs went up was in July of 2004, when Silver Spot was $6.59 an ounce. Generic Walkers are also benefiting from Silver's strength with increases of up to 9% from last week. The 20-coin short-set now has a PCGS MS65 Bid total of $2,752 partially as a result of the common Gems being Bid at $91.

With a tremendous amount of Silver Commems changing hands in Baltimore, only a couple of issues have declined by way of discounting: the PCGS graded Bridgeport in MS66 dropped a bit, while the Lynchburg in NGC MS67 fell by nearly 10%. Gold Commems were hit even harder, especially at the public auction. A total of 16 declines were recorded, with the most serious being the 1904 L&C Dollar, down to $1,200 Bid in PCGS MS63. Surprisingly, Mint State Gold Type is even worse off with declines seen in every grade and denomination through MS66. Even with Gold Spot setting a new, all-time record at $1,459 an ounce, only a handful of small increases are in place, the largest bump up of nearly 4% going to the $5 Indians in MS61.

Silver 3¢ pieces represent the lightest weight and smallest diameter Silver coin ever produced by the US Mint, and received sweeping attention this week as all register higher sight-unseen Bids at each grade from MS61 thru MS64. Additionally, the short-lived Type II 3¢ Silvers, 1854–1858, find buyers willing to get the deal done at $3,000 sight-unseen for Trimes certified MS66. Very quietly goes the Proof Type when simply glancing at the chart, but as is often the case, this is merely confirmation that sight-unseen Bids are usually operative under two certain conditions – a coin is less than solid for the grade, and/or the sale of the coin needs to occur right now. However, as more PQ quality coins are traded in the marketplace, and as more dealers and collectors learn to recognize quality on a practical basis, some find that the cost of doing business by placing coins in auction versus trading select items sight-unseen makes the latter mode more appropriate under certain circumstances.

The **Certified Coin Dealer newsletter** (the *Blueshcet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Examined over 200,000 coins ($1.1 billion)

3rd year anniversary

Purchased over $175,000,000 of coins

We're So Busy Passing Milestones, We Forgot Our Birthday!

CAC was founded over three years ago by leading members of the numismatic community with a mission to develop a higher standard for grading coins. Before CAC, prices for the solid quality coins were tethered to their lesser quality counterparts, thus holding down the market. With CAC, only coins which meet stringent standards for quality within a grade are awarded a CAC sticker. Now, advanced collectors and novices alike have an easy way to identify coins that are solid for the grade.

CAC®

"Because Confidence is Priceless"

NEED TO MAIL?

Save Money On Postage! We will Pre-Sort your Mailing Labels to get You the Best Rate

Need to contact America's leading numismatic dealers? Make your advertising and postage dollars count with the nation's best dealer listing. The company name and numismatist sections of the

2011 Numismatic Dealer Directory™

are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,300+ current names and addresses. And ***current*** is a promise taken seriously — the database is updated ***daily***. All for only $325 — well below the mailing industry standard of $75/thousand.

To make this offer even more attractive, labels are available in both First Class order or Presorted for Basic Bulk Rate mailings: You can save more than $950 over First Class postage stamps! Need just one state or region? Need a trial sample? Order the states you need and pay only $25, plus 7¢ per label.

YES, I want to order mailing labels averaging 5,300+ names from the 2011 Numismatic Dealer Directory. I understand that my $325 fee entitles me to only one usage of these names. _____signature

❑ My check for $325 payable to CDN, is enclosed.

❑ Only send these states _____ and charge me 7¢ per label, and a one-time $25 break-out fee.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

WALKING LIBERTY HALVES

If your coin will stand on its own merits regardless of the certified grade, a higher *CDN* Bid may be more indicative of current market value.

Vol. XXVI No. 15 | April 15, 2011 | Single copy price $4.00

Silver Gallops To New Heights
Walkers Pick Up The Pace

Dealers are currently wrapping things up in Santa Clara, and the International Coin Show in Rosemont, as the road show continues at a rapid pace. Less than two weeks from now, the show circuit faithful will convene in Chicago for the 72nd annual Central States Numismatic Society convention with Heritage taking the role as official auctioneer. As of April 12, CSNS officials disclosed that the bourse had officially sold out. The show opens to the public on Thursday April 28 with the first session of the Heritage auction scheduled for Wednesday April 27. A few of the many highlights from the auction are presented herein. Then it's off to Sin City for the PCGS members only show at the Venetian, May 18-21.

Gold and Silver mania is in full swing and generating a demand for Gold coins and Silver Dollars, somewhat reminiscent, at least to those dealers who have been around long enough, of the 1980 hysteria for such material. Examples of the 1921-D and 1921-S Morgan Dollars step into the limelight as those graded MS63 post a 48% gain to a new Bid of $65. Just behind the D and S issues, the Philadelphia product posts a not-so-modest 27% gain in MS64, now Bid at $70. Common dates, incredibly, experience another round of increases from MS61 to MS67, with one exception being the unchanged MS63 column. And there is other good news for this market segment and that is the sizable number of increases to Bid for issues which fall under the banner of better date coins. Included are numerous examples from the San Francisco Mint like the 1889-S, 1900-S and 1902-S in Gem condition. Peace Dollars continue the saga of Bidding increases with a more modest showing this week, posting gains for generics in MS61 and MS62. The scenario is bolstered by the large number of much better date Peace Dollars that also underwent a positive revision resulting in higher Bids, amongst them the 1923-D in PCGS MS65 now at $775 Bid, and the 1926 in NGC MS66, which reaches the $1,000 plateau for any coin making the grade regardless of aesthetic quality.

Common date $20 Saints undergo extensive revision, the vast majority of the changes resulting from differences in Spot values from last month to today with a plethora of plus signs hitting the chart. Two slightly better PCGS Saints sold at retail auction for a fraction of published levels: the 1908 with Motto in MS64 and an MS65 1909-S went for $2,415 and $2,875. Shockingly, the latter has a visible sight-unseen buyer willing to pay $4,000, leaving over $1,100 on the table. Only a handful of other examples within Gold Type are increasing, with this segment of the market remaining soft. Many are perplexed by this, as Gold Spot has just set another new, all-time record close of $1,472. Some point to **Silver, now over $42 an ounce**, overshadowing Gold as a priority for purchases.

A couple of Early Quarters are higher within Mint State Silver Type, including Capped Bust Reduced Size and No Drapery Seated examples. Both have identical Bids in MS61 and MS62, at $1,100 and $1,300, respectively. Sustainability of current Bids reigned over most Silver Commem issues, as the 1933-D Oregon in NGC MS66 edged up a tad to a Bid of $350. The only lower issue this week is the NGC graded MS64 Vancouver, down from its $350 Bid to $335. Trading activity persisted with enthusiasm among the Gold issues as most maintained their current Bids, the exceptions being the PCGS graded Pan-Pac $1, posting a 5% loss in MS65 and a minor $5 drop in MS66.

Buffalo Nickels and Mercury Dimes are quiet every which way, with Bidding activity mild and transactions few. Walking Liberty Half Dollars had a phenomenal week registering new and higher Bid levels that are readily observable on the chart. Perhaps that the interest is spreading beyond the generics here provides some evidence that this series is gaining traction. Superb Gems are the target with the 1945-S, 1946-S, and 1947 leading the way on a percentage increase basis. NGC 1945-S examples stride from $1,300 to $2,000, a 54% hike, and the PCGS holdered examples reach $2,500 from $2,000, a 25% breakout. MS65 examples of the common dates jump 15% to $105, a level not seen since November of 2008.

Sarasota, FL (800) 642-2646

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MORGAN DOLLARS

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars will be listed monthly in a supplemental insert. CDN (*Greysheet*) Bids have always represented fully, deep mirror prooflike specimens.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

NGC Bulk Submissions Have Never Been Easier

Scott Heller,
Director of Operations

Throughout his 18 years at NGC, Scott has managed and overseen thousands of bulk and prescreen orders. His in-depth knowledge of the numismatic community and the certification process is invaluable to the growth of your business.

Get personal consultations from industry expert Scott Heller.

For years, NGC has led the industry with consistent and accurate grading, excellent customer service and fast turnaround times — for an unbeatable value. We also offer a direct liaison for professional dealers interested in bulk submission. Scott Heller is uniquely qualified to personally assist you with bulk submissions, and will even travel to your location for on-site consultations.

To discuss your options, contact Scott directly at sheller@NGCcoin.com or 1-800-NGC-COIN (642-2646). To learn more, visit www.NGCcoin.com/bulk

MERCURY DIMES

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

WALKING LIBERTY HALVES

If your coin will stand on its own merits regardless of the certified grade, a higher *CDN* Bid may be more indicative of current market value.

JANUARY 2010

MARKET CONSOLIDATES
PRIMARY STRENGTH DISPLAYED AT AUCTION

ACTIVITY
...across the market

by Kevin Foley

The outlook for the collectable currency marketplace appears materially brighter than at this time one year ago. As 2009 drew to a close the peak levels of an overheated market had been reached and were clearly a thing of the past. Transactions were exhilarating, both as to their on-retail numbers and the levels at which they were taking place. A general air of trepidation as to what the future held overhung the market. Dealers were reluctant to buy, for fear that more attractive prices would likely be available from the simple expedient of waiting. Buyers were confronted with contradictory price levels, both with unrealistic auction reserves and pie-in-the-sky offerings at yesterday's much stronger prices from sellers reluctant to accept the sad, yet undeniable reality that their stock was no longer worth what they had paid. Indeed, it was difficult to know where levels really were, as those who measured market makers bought and sold at what the current interplay of supply and demand dictated, while others sought to transfer the consequences of a decline in value of their inventories onto the shoulders of buyers less informed of the new lower levels than they should be. The one bright spot yet as evidence a year ago was that auction sell-through rates remained at a higher level than might have been expected as a market that was truly collapsing, rather than simply undergoing a price correction to rebalance supply and demand at more rational price levels.

As we move on to the new year, what might to some have seemed a looming depression in the numismatic world has clearly not come to pass. The various auction companies active in the currency trade are conducting sales consistent in size with their offerings of a few years ago, although the product mix has clearly changed. Ultra rarities that once commanded mid six figure and higher prices are far less often available at auction, even as sellers of such items wait for a hoped for return to higher levels for such items. While overall prices undeniably remain significantly lower than two years ago, auction sell-through rates a real measure of the balance between seller and buyer price expectations, continue to suggest growing levels of underlying demand, measured by the lower prices currently in effect.

LARGE SIZE TYPE NOTES

Prices for Large Size Type continue to slowly recover, rather than continue to fall. PCGS and PMG certification has become a near necessity for any item represented as being some degree of Uncirculated. Indeed, driven by the concept of equality sets, where buyers compete against each other to claim boasting rights to the finest holdings in various categories, the two certification firms have invented a clever way of promoting demand for their product at the very end of the marketplace. Here there actually exists the most logical and useful demand for their services, i.e. the upper end of the mercantile scale, where subjective quality spectrum in the 11 point Uncirculated range where a single point can mean an especially significant difference in what a buyer might be willing to pay based solely on the third-party grade label attached to an item. [illegible] large [illegible] as the population of undesirable examples continued to [illegible] down in the single digits, new additional demand of all [illegible] by regular set buyers, where each [illegible] naturally creates an [illegible] between the slope of the price gradient and thus serves as an [illegible] of the value of third party grading.

SMALL SIZE TYPE NOTES

Price levels here also continue to recover, with significant interest being focused on low and [illegible] serial numbers, as well as various star [illegible]. Indeed the marketplace for low end [illegible] notes were almost a curiosity where items approximately [illegible] than more ordinary items of the same type sold for relatively [illegible] premiums has now expanded to the point that there are multiple market makers in this specialty and it has become a real mainstream area appearing to [illegible] much broader purchasing base than applied a decade ago. While third party certification has as a penetrated here to the same extend that it has on the large Size specialty, a trend in that direction as very clearly present and premiums at the upper end of the Uncirculated spectrum are widening for such certified material, especially versus similarly described unslabbed items. Error notes remains a popular collector driven specialty.

FRACTIONAL CURRENCY

Fractional Currency remained very much a collector as opposed to a speculator dominated area with price levels for very attractive material at a given scarcity remaining well below that of Large and Small Size Type Notes. Ultra rare items here remain available at auction at price levels that are a small fraction of large Size Type material with similar populations. Exceptionally well centered notes, regardless of how common, continue to generate signals and demand and are easily saleable even when severe fractional aggressively priced.

NATIONAL BANK NOTES

National Bank Notes, comprised of multiple geographic specialty areas, remain more sporty than the other collecting specialties. Scarce to rare material from in demand states can still quite strongly sometimes surprisingly strongly at auction, while material from areas enjoying a less robust following will command only levels that can leave sellers feeling others have between frustrated and quite disappointed. It can be a hard lesson to learn at any collectables marketplace, but there is a real distinction between what sellers think something ought to be worth and what it currently is worth based on the interplay of potential owners competing against each other at auction. What the seller paid, what he wanted or what he thought the item should be worth is really quite irrelevant to the entire process. Some never seem to figure this out.

MISCELLANEOUS

Obsolete continue to be a bright spot in the market with rare material enjoying a broad and growing demand. This remains an area driven by informed collectors, with very little investment by the third party certification firms. The exception is for extremely common items that can be marketed as "[illegible]" in higher to buyers more impressed by the certified grade label than the ease or challenge of locating and acquiring an item.

[illegible]

The *Greensheet* reports the national currency market on a monthly basis

. . . is a Monthly Publication that is the most COMPREHENSIVE and UP-TO-DATE pricing guide available in today's ever-changing field! DEALER-TO-DEALER BID/ASK Charts cover all of the following areas:

LARGE SIZE U.S. NOTES

- DEMAND NOTES
- U.S. NOTES: (LEGAL TENDER)
- COMPOUND INTEREST TREASURY NOTES
- INTEREST BEARING NOTES
- REFUNDING CERTIFICATES
- SILVER CERTIFICATES
- TREASURY NOTES OR COIN NOTES

Vol. XXVI No. 16 | April 22, 2011 | Single copy price $4.00

Bullion Buoys As Dollars Bully Market
Walkers Continue To Step It Up

Precious metal strength, especially Gold and Silver, will undoubtedly inject real excitement into Rosemont, Illinois next week. This could possibly draw a much larger-than-usual cross section of show attendees who are increasingly aware of precious metals by virtue of the mainstream media where Gold and Silver are often discussed as an investment, a hedge, and a store of value. Another group of growing attendees are the so-called Gold and Silver bugs, the latter of which is in the pole position as of late. The 72nd Annual Central States Numismatic Show will begin with PNG Day, April 27. An extra $75 will gain one access to not only the PNG bourse, but also dealer set-up the following day.

Generic Silver Type	CCDN MS65 Bid	Combined P&N Pop
Mercury Dimes FB	$25	53,885
Franklins FBL	$35	32,394
Walkers	$112	173,328
Pre '21 Morgans	$195	637,348
1921 Morgans	$165	14,516
Peace Dollars	$175	102,252

Enthusiasm and super strong demand for Silver Dollars continue to grow at a rapid pace. Ongoing action includes hundreds of increases to Bid for generics grading MS61-MS62, and MS64-MS67. MS63s dropped a bit to $58, but recall that these Choice Uncs led the charge which goes back to October 2010 without the interruption of a decrease. Major Bid increases week after week have yet to produce the quantity of coins that are needed. This may account for the aggressive 19% increase for MS66 Morgans and the 17% rise in Bid for MS65 Peace Dollars which are now at a remarkable $175. The remainder of the series has higher Bids without exception from MS61 thru MS66. Population data for Peace Dollars show that the combined PCGS/NGC total for MS65 examples is 102,252; roughly 44,000 are dated 1923. By comparison, an 1881-S Morgan boasts a combined population of approximately 91,000 in MS65, and nine other common dates have combined populations exceeding 20,000.

Liberty Seated Dollars, No Motto, a much coveted design Type, receives attention in MS61 and MS62, where at least one dealer is willing to pay $1,100 and $1,250, respectively. Mint State Gold Type activity has been mostly limited to bullion sensitive issues, primarily the $20 Libs and Saints. In both cases, the upward adjusted Bids are posted to grades MS61 thru MS64. Sight-unseen Bids advanced significantly by comparison to Spot for Double Eagles, with MS64 and MS65 Saints increasing by 4% from last week, while Spot increased by 2% to $1,503.

Proof Gold Type enjoyed a renaissance of Bidding support following last year's introduction of the premium quality grading tiers of service. Since that time, the amount of support has retreated, but Bidding levels have not. In fact, prior to the "Big One" the *CCDN* Proof Gold Type Index on Feb 19, 2010 registered 984.7. Following the + grading announcements and the flurry of sight-unseen Bidding activity, this index rose to 998.44 as of April 23 last year. Today the CMI for Proof Gold Type resides at 1,008.41. High-grade Uncirculated and Proof Type have not been getting as much attention this week, at least not enough in terms of raising Bid levels. Both Unc and Proof Coppers, and especially, PR61 through PR67 NGC graded Three Cent Nickels, continue to have buyers ready to purchase at current sight-unseen Bids. Cautious sight-unseen Bidding prevailed among the Silver Commems this week with the only increases the result of Silver Spot's strength. Among the Gold issues, a slight decrease in Bid now appears for the 1903 LA/Jefferson $1 graded MS66.

Walking Liberty Halves enjoy a second week in a row of stellar performances from the generics, an ensemble cast where even the most common come along for the show. Generics record higher sight-unseen Bids for grades MS61, MS62 and MS64 thru MS67. April 1 saw the published Bid at $89 for any Gem Walker. Now, a mere three weeks later, Bid is up to $112, an increase of 26%. These Gems have outshined Silver Spot, which is now over $46 per ounce, a 22% bump over the same time period. Among the earlier dated Walkers, the 1935 in PCGS MS67 posted a nice 7% gain, as the week's trading throughout the rest of this segment continued its strength, precluding even a single minus sign.

PCGS — Professional Coin Grading Service, Newport Beach, CA (800) 447-8848

NGC — Numismatic Guaranty Corporation of America, Sarasota, FL (800) 642-2646

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" – Lowest asking price during the week prior to publication (week old); "**m**" – Lowest asking price during the previous three weeks (month old); "**t**" – Trade during the most recent month; "**lm**" – Lowest asking price appearing last month; "**lt**" Trade appearing *last* month; "**ot**" *T*rade older than 2 months; " " a blank, for all Market prices older than two months; "**a**" for auction transactions; "**oa**" – auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over 200,000 coins with a market value over $1.1 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are only placed on quality coins.

What's more, CAC is a powerful market maker for it's stickered coins. In fact, CAC has recently purchased over $175,000,000 worth of coins.

So the CAC sticker does not add value - It is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

The CAC sticker doesn't add value, it just helps to identify a quality coin.

CAC®

"Because Confidence is Priceless"

Every Numismatic Library needs a complete set of the

COIN DEALER newsletter family of publications

Order Online www.greysheet.com

the Backsheet

Now that we have your attention, we really haven't started an additional newsletter — but your library should include **Back Issues** of our publications. Back issues are available two ways:

You can purchase small quantities to fill in missing issues, to obtain articles necessary for your research, or to follow your special interests. You may also combine your order for back issues of any of our publications to obtain the lowest price:

1-10 issues - $2.50 each • 11-25 issues - $2.00 each • 26 & over - $1.50 each

Or, you can purchase ***complete sets*** of back issues for really dramatic savings:

the COIN DEALER newsletter
HIGH BIDS ARE NO GUARANTEE
MORGAN DOLLARS STILL RISING
the COIN DEALER CDN MONTHLY SUPPLEMENT newsletter
the COIN DEALER CDN QUARTERLY III newsletter
the COIN DEALER CDN QUARTERLY II newsletter
the COIN DEALER CDN QUARTERLY I newsletter
CERTIFIED COIN DEALER newsletter
the CURRENCY DEALER newsletter
CHICAGO PAPER MONEY EXPO ACTIVE
ACTIVITY

Complete set of the weekly **Coin Dealer newsletter** (*Greysheet*) from June 14, 1963 to December 17, 2010, now includes 2,424 issues. At $1.50 each this would normally cost $3,636, but a complete set is only ..... **$2,425.**

Complete set of the monthly **CDN Monthly Supplement** (formerly the Monthly Summary) from August 1976 to December 2010, now includes 413 issues. At $1.50 each this would normally cost $619.50, but a complete set is only .... **$480.**

Complete set of the **CDN Quarterlies** from January 1992, to December 2010, now includes 228 issues, a complete set is only ..... **$250.**

Combined weekly **CDN** (*Greysheet*), **Monthly Supplement & Quarterlies** now includes 3,065 issues, and extra savings at only ..... **$3,025.**

Complete set of the weekly **Certified Coin Dealer newsletter** (*Bluesheet*) from August 22, 1986 to December 17, 2010, now includes 1,202 issues. At $1.50 each this would normally cost $1,803, but a complete set is only ..... **$1,260.**

Complete set of the monthly **Currency Dealer newsletter** (*Greensheet*) from September 1980 to December 2010, now includes 364 issues. At $1.50 each this would normally cost $546, but a complete set is only ..... **$430.**

4,630 Newsletters

For the most complete numismatic pricing library possible, you may order a COMPLETE set of all of the Back Issues listed above for only $4,275.

Vol. XXVI No. 17 | April 29, 2011 | Single copy price $4.00

Déjà Vu All Over Again For Dollars
Gold & Silver Skyrocket: A Broken Record

Dealers are in Rosemont, Illinois attending the 72nd annual CSNS convention and Heritage auction while Silver Spot heads towards $50 an ounce. Gold is also on fire, reaching another all-time record high close of $1,531. The rare coin market is indeed thriving as it has done for the last decade. A variety of dealers from those that deal exclusively in higher end coins, say $10,000 and above, to those who cater to the crowd for collector coins, are making noticeable and concerted efforts to acquire coins for inventory. One could argue that these dealers are putting away coins that they believe will become the focus of collectors after the frenzy with bullion related items tapers off.

Déjà vu all over again and that's a good thing as Dollars undergo another round of revisions taking Bid levels higher in every grade. Dealers are now paying 20% more, sight-unseen, than generic Dollars were realizing at retail public auctions just a few weeks ago. MS67 Morgans had not received the kind of attention that other grades did. Nevertheless, this week's jump marks a 17% increase since February 18, 2011 with Bid now at $650. Examples of the 1921 Morgan are Bid higher in MS64, with Very Choice slabs now at $80, representing a 14% hike from last week. Generic Morgans grading MS66 are at a new all-time high of $365. Common date Peace Dollars are Bid higher thru MS65, the latter stepping up $5 to $180, a much more modest boost than last week's move of 19%. Even though the lower Mint State grades are higher, they may have much more room to grow since a large number of buyers will pay just about the same price for well-circulated, raw pieces.

Mint State Gold Type is the beneficiary of higher Bids mostly the result of Spot, though there are some decidedly numismatic examples increasing as well. Common date $20 Saints and Libs garner the lion's share of plus signs, with increases by as much as $300 over last week. On a percentage basis, Quarter Eagle Indians graded MS64 by NGC, lead the segment by rising 11% from our last report, with examples now Bid $1,000. An 1873 Open 3 Type II $20 Lib graded NGC MS62 sold at auction for a tad under $2,250, while a Bidder stood by willing to accept any coin of the Type at that grade level, sight-unseen, for $2,400. Presumably, the seller/consignor left $150 on the table.

Proof Type is steady as she goes, with strong support throughout. Proof Morgans certified PR63 remain at $2,100, up from $1,725 last month. Trade Dollars exhibit an even larger gain. PCGS PR63 examples Bid for $1,700 March 11, 2011, and are also at $2,100 today. Dealers will pay $2,300 for any NGC example in the same grade, regardless of its aesthetic quality. Action maintained itself among the Silver Commems, enough so to bolster Bid for the Booker T. Washington Type in NGC MS67 to an impressive gain of more than 12%. Select BTW PDS sets dated 1946-1951 posted moderate increases in most grades through MS65. Gold Commems remain strong and well-supported at current Bid. Walking Liberty Halves continue the string of weekly advancing Bids with gains adhering to common dates in MS64 now Bid $50 each, sight-unseen, with dark, ugly, mushy and/or badly toned, all acceptable. More quality-conscious Bidders returned this week for MS67 NGC graded specimens, such as the 1939, 1940, 1941, 1941-D, 1942, and 1943, raising their Bids by as much as 10% in hopes of snagging some for their clients.

The Numismatic Consumer Alliance (NCA) has announced the recovery of nearly $5 million since becoming operational in 2005. Over $735,000 of this total has been recovered from the most recent 19 cases, the single largest of which was a case involving $130,000. NCA's executive mediator, Scott A. Travers, stated that the "NCA deserves credit for being in the forefront of resolving the serious problems that arise from time to time in this industry." Roughly 80% of the disputes are in fact resolved through mediation between the NCA and the sellers. Unfortunately, the most common victims of the unscrupulous predators are the elderly who get conned into believing that the numismatic junk they are buying is actually a good investment. Luckily, if the proper paperwork is kept and presented to the NCA, such victims have a chance at seeing justice.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Security Made Simple

NGC's tamper-evident holders and state-of-the-art holograms have become the symbol of protection for your most treasured coins. And now, the world's most preferred third-party grading service empowers collectors and dealers with an innovative, user-friendly security feature: NGC online verification.

By entering the unique NGC serial number on a coin's label, you'll access everything you need to be sure a certified coin is authentic. Enlargeable images of the coin, captured by NGC before it was shipped, are displayed alongside attribution and grade information from NGC's own secure database. It's complete protection for you and your coins — any time you buy or sell, anywhere the hobby takes you.

To learn more, visit www.NGCcoin.com/security

Now you can verify certification on the go.
Visit m.NGCcoin.com from your mobile device.

Silver Sinks, Dollars Deflate
David Hall's In $4 Million For $10 Lib Set

Dealers have returned from a very successful show in Rosemont, where the amazing official auction totaled nearly $24 million. The highest priced coin sold for $345,000 — an 1870 $20 Liberty NGC PR65 UCam. Things got off to a great start with the PNG Day significantly more active than usual partly as a result of invitations delivered to CSNS members. The show kept steaming ahead as precious metal strength fueled enthusiasm. However, metal volatility has certainly been a double edged sword. It is true that a day after setting an all-time record high of $1,557 on May 2, Gold has since taken a nosedive to $1,481. Silver, which came ever-so-close to $50 an ounce during the CSNS show, has now plummeted to $36. Spink Smythe auctioned the Magnolia Collection, May 3, bringing in a total of just over $1.24 million. We have included several of the many PCGS highlights herein.

Mercury Dimes remain slow, with inaction largely due more so to a lack of material than to disinterest among Bidders. While some nominal quality, semi-key pieces may demonstrate some weakness, such as the PCGS graded MS64 1919-S and the MS65 1920-D, which now have slightly lower Bids, Full-Band designated examples, when offered, are rarely ignored. Walking Liberty Halves seem to have taken on a life of their own, as if detached from the dictates of this week's declining Silver Spot. Higher Bids, while slight, continue to appear for later-date Walkers in grades MS65 and MS66. Key-dates, such as the early S-Mint issues, remain elusive and, of course, highly desirable in any grade. The sight-unseen trading activity among Silver Commems took on a somewhat guarded posture as Bidders once again appear to be looking for bargains throughout this segment. Current Bids for most issues held steady, but there were some minor declines, as was the case for the NGC graded California and Missouri, both in MS63. Whether or not it was a simple matter of perceived overvaluation for some high-grade Gold Commems, the market certainly saw a dramatic correction take place this week. This was the case for the 1905 L&C $1 in PCGS grades MS65 and MS67, of which specimens of the latter grade saw their Bid decline by $10,000. This same issue in NGC MS65-MS67 also lost ground, with lower Bids for all three grades down by an average of 13% since last week.

Spink Smythe		Price Realized	
1836	Gobrecht Dollar	PR62+	$28,850
1882	Trade Dollar, Cameo	PR63+	$5,275
1807	$5 Capped Bust, Left	AU58	$10,450
1809/8	$5 Capped Bust	MS64+	$71,975
1810	$5 Capped Bust, Lg Date, Lg 5	AU58	$12,175
1795	$10 Capped Bust, 9 Leaves	MS61	$379,600
1797	$10 Capped Bust, Lg Eagle	AU55	$34,600
1801	$10 Capped Bust	XF45	$16,200
1803	$10 Capped Bust, Sm Stars	AU55	$32,300

Morgan and Peace Dollars are mixed with advances and declines, after months of significant increases recorded week after week. Higher Bids for Morgans are mostly limited to the MS66 grade where common dates are now $380, a 4% increase from last week. Generic Dollars have settled back a bit in MS64 and MS65 to $95 and $200, respectively. Carson City Morgans in their original GSA plastic are heating up with buyers paying at least $170 for the most common issues. Select GSA issues with the NGC grading band are higher in MS66. Superb Gem Peace Dollars are higher in NGC plastic with sight-unseen buyers now willing to pay $2,300 for any example. Common date Peace Dollars are a bit softer in MS63-MS64. As for better dates, a 1924-S graded MS66 by PCGS with the CAC approval realized a whopping $54,625 at the CSNS auction.

Mint State Type boasts very strong retail auction results from Rosemont with multiple examples selling for substantially high levels. A 1796 Bust Quarter graded NGC MS63 realized $138,000 while another esoteric Type, the 1839 No Drapery Half Dollar, graded MS64 by PCGS and stickered by CAC, made it to $115,000. The last example of this coin in the same grade and plastic that sold at public auction without the CAC sticker realized $57,500 in 2008. A full review of last week's transactions pertaining to this segment indicates that just a few adjustments were in order, the biggest downgrade accruing to PCGS MS66RD Two Cent pieces which stumble 7% to $2,700. Mint State Gold looks to be overrun with downside activity, but a detailed look at the chart reveals that perhaps $^2/_3$ of the decliners have decreased by only 2% or less. Proof Gold Type performed quite well at the Heritage auction in Illinois, accounting for the seven highest prices realized in the sale.

Legend Numismatics recently handled the sale of PCGS founder David Hall's $4 million complete set of $10 Libs, the finest known set of its kind. The coins were purchased by well-known collector Bob R. Simpson, who also owns the finest collection of $10 Indians. While David Hall was a bit reluctant at first to sell his "babies", he did state that he is happy they have found a great new home. A few examples from the 184-piece set include an 1848 MS64, with none graded higher; an 1875 AU50; and an 1876 MS60, the only known Uncirculated example of this rarity.
